

OVERVIEW

The School of Allied Health Sciences (SOAHS) is one of three health professional schools at Florida Agricultural and Mechanical University (FAMU). The school was established to recognize the need to provide access to quality education in a group of rapidly growing health professions. The school has six divisions: Cardiopulmonary Science, Health Care Management, Health Informatics and Information Management, Health Science General, Health Science - Pre-Occupational Therapy, Health Science - Pre-Physical Therapy, Occupational Therapy, and Physical Therapy. Since its start in 1982, SOAHS has experienced continuous involvement in education, practice, and research that has contributed to the strong reputation of each academic division within the school. Its respective accrediting body accredits each division. Overall, FAMU ranks as the number one producer of African-American allied health professionals in Florida. SOAHS has successfully attracted substantial extramural funding. It has received over \$4 million from the Department of Health and Human Services to support programs designed to increase minorities and other underrepresented persons in the allied health professions.
