The Florida A&M University School of Architecture (SOA) will host a FL|CC Day Institute that will advance engaged scholarship. Faculty, administrators, students, and community partners will come together to explore cross-disciplinary service-learning practices, opportunities, and partnerships. Participants will discuss the social, economic, and environmental concerns of sustainability and the role of faculty, community partners, and students in developing service conscious academic programs and community partnerships. The FL|CC Day Institute will identify opportunities to expand cross disciplinary scholarship within the mission of higher education.
9:30 to 10:00 registration
SOA LOBBY/ MAIN ENTRANCE

10:00 to 10:40 introduction + define terms
DEANS CONF ROOM
10:00 Welcome
Andrew Chin, Associate Professor, FAMU School of Architecture

10:10 What is Sustainability?
Elizabeth Lewis, Associate Professor, FAMU School of Architecture

10:25 What is Service Learning?
Dr. Matt Powers, Associate Professor, FAMU School of Architecture

10:45 to 11:40 “green” service learning: 01
DEANS CONF ROOM
10:45 green service learning 01
Moderator, Elizabeth Lewis, Associate Professor, FAMU School of Architecture
Dr. Matt Powers, Associate Professor, FAMU School of Architecture
Andrew Chin, Associate Professor and Gary Purdum, Visiting Professor, FAMU School of Architecture
Mike Alfano, Associate Professor, FAMU School of Architecture

11:30 Question/ Answer

11:45 to 12:25 “green” service workshop: part 01
DEANS CONF ROOM + UPSTAIRS CONFERENCE ROOM (2 SESSIONS)
11:45 Self Introduction of Faculty and Participants
11:55 Discussion with participants of their goals, objectives, needs and potential projects

12:30 to 1:15 lunch + research presentations
SOUTH ATRIUM
12:30 Sustainability Research: Alternative Energy
Moderator, Dr. Richard Gragg III, Associate Professor, FAMU Environmental Sciences Institute
Dr. Kyron Williams, Assistant Professor, FAMU Physics
Dr. Oghenekome Onokpise, Professor, FAMU CESTA
Dr. Adrienne Cooper, Associate Professor, FAMU CESTA

1:15 Question/ Answer

1:30 to 2:15 “green” service workshop: part 02
SOUTH ATRIUM
1:30 Report on preliminary discussions
1:40 Discussion of possibilities

2:30 to 3:30 “green” service learning: 02
RM 111
2:30 green service learning 02
Moderator, Dr. Richard Gragg III, Associate Professor, FAMU Environmental Sciences Institute
Dr. Matt Powers, Associate Professor, FAMU School of Architecture
Dr. Alfredo Lorenzo, Professor, FAMU CESTA
Dr. Jennifer Taylor, Coordinator, State Wide Farm Program, FAMU CESTA

3:15 Question/ Answer
3:30 to 4:30 afternoon guest panel
SOUTH ATRIUM
3:30 guest panel
Moderator, Andrew Chin, Associate Professor, FAMU School of Architecture

Phoebe Crisman, Professor
School of Architecture, University of Virginia

Since January 2006 Ms. Crisman has led an interdisciplinary team of University of Virginia students and diverse community partners to design and fabricate The Learning Barge - a floating, self-sustaining environmental education field station on the Elizabeth River. The project received the 2006 National Student Collaborative Design Award from the AIA and a 2007 NCARB Prize for Creative Integration of Practice and Education in the Academy. In April 2007 the Learning Barge team won the US EPA P3 Sustainability Award in a competition on the National Mall in Washington, DC. Most recently, the project was honored with an Excellence on the Waterfront Award from The Waterfront Center.

Stephen Luoni, Professor, Dir., Univ. of Arkansas Community Design Center
Fay Jones School of Architecture, University of Arkansas

Stephen Luoni’s design and research have won more than fifty design awards, including Progressive Architecture Awards, American Institute of Architects Honors Awards, a Charter Award from the Congress for the New Urbanism, and American Society of Landscape Architecture Awards, all for planning and urban design. His work at UACDC specializes in interdisciplinary public works projects combining landscape, urban and architectural design. His work has been published in Oz, Architectural Record, Landscape Architecture, Progressive Architecture, Architect, Places, L’Architecture d’Aujourd’hui, Progressive Planning and Public Art Review

4:45 to 5:45 reception

6:00 to 7:00 evening guest lecture
SOUTH ATRIUM
Welcome, Andrew Chin, Associate Professor, FAMU School of Architecture
Introduction, Dr. Jeffrey Lowe. Assistant Professor, FSU Dept. of Urban and Regional Planning

Dr. Henry Louis Taylor, Jr., Professor, Director of the Center for Urban Studies, Department of Urban and Regional Planning, SUNY University at Buffalo

Taylor is the editor of four books. The most recent book is a monograph on neighborhood development in Havana, Cuba. Dr. Taylor is primarily interested in neighborhood planning and the development of community participation methods in community design and planning, with a special interest in community participation in brownfield redevelopment.

6:45 Question/ Answer

Dr. Taylor's lecture is cosponsored by the FAMU Office of Black Diasporan Culture and the FAMU Office of International Programs.
