OPEN SESSION:

Chairman Jennings recognized Trustee Parks for a motion. Trustee Parks moved that the board authorizes the attorneys to continue settlement negotiations in accordance with the discussion that occurred in closed session. The motion was seconded by Trustee Holmes and it carried.

Chairman Jennings recognized President Ammons to present information regarding an amendment to Regulation 3.017, the Schedule for Tuition and Fees. He noted that at the September meeting of the Board of Governors (Bog), the BoG approved a tuition increase for in-state undergraduate students at a rate of 5%, beginning in January 2008. The legislature approved the same increase. The Trustees approved the schedule of tuition and fees earlier this year. Given these recent actions, the Trustees must revise the schedule of tuition and fees found in the regulation to reflect this increase.

This increase will raise resident tuition from 73.71/per credit hour to $77.39, an increase of $3.68 per credit hour. The increase will generate $410,000 of which 30% will be used for need-based financial aid. Currently, this change only applies to in-state undergraduates. The Board of Governors, or its designee, will set out-of-state and graduate tuitions by March 1.

Following discussion of the matter, Trustee Holder moved approval of the amendment to the Tuition and Fee Schedule to reflect the increase. It was seconded by Trustee White and the motion carried. Trustee Monique Gillum, the president of the Student Government Association, voted no.

Next President Ammons asked Dr. Kirk Gavin of the Provost’s Office, to present information regarding revisions to Regulation 4.005. Dr. Gavin noted that the Academic Policies Review Committee revised Regulation 4.005, to comply with the Board of Governor’s policies regarding the authorization and termination of academic programs. With this regulation, the Board of Governors will consider the doctoral program in Physical Therapy that was previously approved by the Board of Trustees.
Trustee Parks moved approval of the revisions to Regulation 4.005. It was seconded by Trustee Badger and the motion carried.

Chairman Jennings asked President Ammons to present the next item. President Ammons asked Associate Vice President Tony Stallworth regarding two facility items. Mr. Stallworth noted that on the University Commons project, a change order was need to install new wood and steel structural members to shore the interior and exterior walls of the University Commons Building. This request is change order #2 and cost $871,954.00 to Peter R. Brown Construction. Trustee Branker inquired about keeping a “running tab” of all change orders for each project for the trustees. The staff agreed to do present that information in the future. Trustee Badger moved approval of this matter and it was seconded by Trustee Parks. The motion carried.

Mr. Stallworth presented information regarding the change order #2 for the electrical upgrade for $158,566. This change order will add two 5” conduits between several manholes as part of the electrical upgrade project. The City of Tallahassee has agreed to provide a third electrical feeder into the electrical substation on the north side of the campus along Wahnish Way. This request is change order #2 and will cost $158,566.00 prepared by Fred Wilson & Associates, Inc., the electrical engineer for the project. Trustee Holmes moved approval of the change order and it was seconded by Trustee Badger. The motion carried.

Next Dr Ammons recognized Mrs. Woodruff regarding a special assignment for Dr. Larry Rivers. She reminded the board that this matter previously was considered to grant a leave of absence from his current employer, Fort Valley University. In a special assignment, Dr. Rivers has specific duties that will occur from October 1 to October 31, 2007. Trustee Parks moved approval of the assignment, seconded by Trustee Badger, and the motion carried.
