The February 7, 2013 minutes were corrected by Trustee Persaud to include his statement “After President Robinson’s presentation, Trustee Persaud called attention to SACS’ concerns. He noted the seriousness of being on probationary status by reading SACS’s definition of probation, and called on Dr. Robinson to ensure the competencies of administrators.” That correction was accepted.

Regarding the June 27, 2012 meeting, Trustee Jennings asked that the minutes be corrected to reflect that the motion he made was seconded by Trustee Langston, rather than Trustee Persaud. That correction was accepted.

The other minutes dated September 7, 2011, October 3, 2011 and March 16, 2012, were presented for informational purposes, as the ad hoc committee to review the president’s contract and the anti-hazing committee are not currently functioning.
V. **PRESIDENTIAL SEARCH COMMITTEE**
*Trustee White, Chair*

Trustee White reported that since the last report in February, the subcommittees and Green-Asher had worked diligently to secure a robust pool of applicants for the presidency. The firm reviewed applications, disseminated information and kept the Board members apprised of the progress. On Friday, March 22, 2013 the search was suspended indefinitely. He stated that a meeting has been arranged with the search firm to finalize expenditures that must be paid. He indicated that there are minutes that document the work of the committee that need to be approved at a future meeting.

Chair Badger asked for a point of personal privilege regarding the status of the presidential search. He stated that the Presidential Search Committee will continue its work on January 1, 2014. The purpose of suspending the search was to provide an opportunity to ensure that all attention is devoted to doing the daily work of the University and ensuring that it meets all of the standards and criteria mandated upon by SACS. This should ensure that when the University has its visitation it will maintain our accreditation. He also stated that he also wanted to ensure that the University was in a fine operating posture. Therefore, the Board is asking during this period of time that Dr. Robinson maintain his posture as interim president. That he is able to work in the same fashion that he was doing and that he uses his discretion in ensuring that some of the major mandates are managed before the search starts again in January 2014. Chair Badger stated that Dr. Robinson should manage the vacancies and interim positions and not withhold moving on those until the time that a president is in place.

Dr. Robinson addressed the Board. He stated that he appreciated the vote of confidence and the ability to continue to serve this great institution. He stated that he will do what is needed to preserve the legacy of FAMU and is excited about continuing in this role. He thanked the board for allowing him the opportunity to do so.

Chair Badger recognized Trustee Persaud for a comment. He affirmed that Dr. Robinson was not restricted from making changes to move the University forward.

Trustee Jennings sought confirmation that the search will start again in January 2014. He restated that Dr. Robinson will have the authority and authorization to run this university in a way that he sees, including any necessary changes that he deems appropriate. Chair Badger indicated that through the Board’s comments they were reassuring Dr. Robinson that he should move the University forward.

Trustee Montgomery indicated that the Board needed to have clarity of what their expectations were of Dr. Robinson. He did not recall the board laying out what his job description was, other than to keep the University running until a new president was selected. With the SACS probation, it became necessary for him to do everything that was needed to get the University off probation and to prevent further punitive action from SACS. Trustee Montgomery stated that the Board also needs to have some measures that can be used in Dr. Robinson’s evaluation.
Trustee Lawson restated for clarification that the board was going to start the search again in January 2014. In the interim, the board needs to be clear regarding its expectation of Dr. Robinson.

Trustee Jennings indicated that in reference to Trustee Montgomery’s statement, the board should consider having a retreat with Dr. Robinson to go over the board’s expectations and give Dr. Robinson an opportunity to bring to the board any concerns he may have. Trustee Lawson moved that the board schedule a time with Dr. Robinson to establish its expectations. It was seconded by Trustee Jennings and the motion carried. Trustee Badger stated that the retreat should be scheduled as soon as possible.
