PRESIDENT’S REPORT  
*Dr. Larry Robinson, Interim President*

Chair Lawson recognized President Robinson’s report. President Robinson thanked Trustees Lawrence and Mills for hosting student recruitment receptions in their homes. He also noted that Trustees Dortch and Lawson plan to host similar receptions before the end of the year. He indicated that the University won a grant from Home Depot’s “Re-tool your School” competition.

President Robinson informed that Board that the University signed an historic agreement at Kennedy Space Center with Lockheed-Martin. The five-million dollar contract with Lockheed-Martin is in association with the Orion vehicle which will be the manned vehicle to Mars. FAMU is the only university involved in this initiative. He stated that “the pathway to Mars goes through FAMU” and that this is a major opportunity for our faculty to do research and for our graduates and students to gain exposure.

FAMU alumnus Ibram X. Kendi received a prize for non-fiction at the National Book Award ceremony in New York City, for his book entitled “Stamped from the Beginning: The Definitive History of Racist Ideas in America.”

Lastly, President Robinson shared that major gifts would be announced during the FAMU v. Bethune-Cookman University football game.

PRESIDENTIAL GOALS  
*Kelvin Lawson, Board Chair*

Chair Lawson reminded the Board that during its September 15, 2016 meeting, the Board indicated that President Robinson should submit his proposed goals by November 1, 2016. He said that President Robinson met that
deadline and the goals were then forwarded to the full Board. Chair Lawson asked President Robinson to highlight the goals.

President Robinson highlighted several of his proposed goals, including the following:

1. Improve retention and graduation rates
2. Maintain regional accreditation
3. Improve performance on licensure examinations (Corrective action plans)
4. Enhance the quality of academic programs
   - Percentage of Bachelor’s graduates employed within one-year and earning $25,000 or more
5. Increase faculty, student, and staff buy-in and engagement with student success initiatives
6. Increase student enrollment (FTIC, Florida AA transfers, 2+2 transfer articulation agreements and total graduate student enrollment)

President Robinson indicated that he plans to create a dashboard to track the University’s progress on the goals and metrics, so that the Board can see the ongoing progress. He also added that the goals are aligned with the strategies. President Robinson confirmed that he would continue to enhance the University’s 2+2 program. Additionally, he indicated that he believed the university could raise its graduation rate to 50% over the next few years, ensuring that the students receive the support that they need to progress.

The Board raised questions regarding the University’s current enrollment and asked for a written document providing the enrollment numbers and the categories of the enrollment numbers. President Robinson assured them that he would provide unofficial enrollment numbers for 2016, as the university has not received the official verified numbers from the Board of Governors.

Trustee Washington indicated that she would like to see a goal that specifically deals with how the University is going to balance our cost controls in expenses, aligned with our revenues. Chair Lawson stated that it could be added to the goals, either looking at a balanced budget or creating action steps to address any gaps in the budget. Chair Lawson also recognized Trustee Mills’ point that organizations don’t get rated on revenue, they get rated on profitability and the focus on quality has to outweigh revenue. He stated that according to the status of the University regarding enrollment, there may be the need for another discussion regarding structure and size of the University.

Chair Lawson asked for a motion to approve the goals. The motion for approval was offered by Trustee Dortch and seconded by Trustee Woody. The motion carried.

STANDING COMMITTEE REPORTS

Chair Lawson recognized the Committee chairs to present their respective reports.
