We ask that an additional metric be taken into consideration, one that better reflects FAMU’s contribution and that of its students, to the economic vitality and stability of the State of Florida and our nation. We look forward to working with other universities in developing a metric that best reflects the institution’s unique contribution.”

The motion was seconded by Trustee Turnbull and the motion carried.

A decision on the probation sanction will be rendered at the SACS-COC Annual Meeting in December 2013.

Trustee Turnbull indicated that the Committee discussed the issue of low salaries for FAMU faculty in the FAMU-FSU College of Engineering and for all faculty in the College of Pharmacy and Pharmaceutical Sciences. She stated that a concern regarding low faculty salaries was highlighted during Doctor of Pharmacy program accreditation review. The salaries of FAMU Pharmacy faculty are below the state and national averages and considerably less than the 25th percentile. She said that Dean Michael Thompson presented two options for removing the non-compliant status: requesting a special appropriation or requesting a tuition increase for pharmacy students. The options for providing the salary equity will be included in the response to the Accreditation Council for Pharmacy Education.

Trustee Turnbull stated that the presentation by Dr. Keith Simmonds captured excitement regarding what is happening on campus academically. In regard to the progress on the strategies outlined under BOT Goal Number 4: Enhance Institutional Fundraising, the Committee was presented strategies to increase fundraising outcomes; efforts to begin the planning stages of the comprehensive campaign; notable developments with social media and marketing initiatives; update on the President’s Club at Bragg Stadium; and acknowledgement of the Board’s achievement of 100 percent giving last year.

She stated that as of August 31st, two weeks into the first quarter of the new fiscal year, the fundraising total is $360,327 or 24% of the first quarter benchmark goal of $1,500,000.

Trustee Shannon shared the following:

  o the Foundation engaged Doug Croley Insurance Services to conduct an insurance analysis and present a risk management report that assesses current coverage and recommends changes to strengthen the insurance program;
  o an RFP for auditing services was developed and implemented, since the current contract with BCA Watson Rice expires December 31, 2013; and
  o the Foundation is developing a Memorandum Of Understanding (MOU) that will clarify some of the structural guidelines between the Foundation and the University stipulated by the Internal Management Memorandum which governs all University Direct
Support Organizations. The MOU will be submitted to the Board of Trustees at the January 2014 meeting.

She highlighted that investment returns for FY 2012-13 of 9.72%, exceeded the investment goal of 8.5%, but underperformed the composite benchmark of 11.41%. International equity returns that were half their benchmark return, 7.07% vs. 14.14%, were the primary cause of the portfolio’s underperformance against the composite benchmark.

Trustee Shannon informed the Board that the Office of Alumni Affairs provided assistance to the FAMU National Alumni Association for the Northeast Region’s 49th Annual Conference held August 16th-17th in Alexandria, VA. During the University President’s Fundraising luncheon held Saturday, August 17th, the Northeast Region Alumni Leadership donated nearly $10,000 to support FAMU.

The Division of Audit and Compliance is monitoring the new processes in an effort to support continuous improvement.

Mr. Bryan Smith, Special Assistant to the President for Anti-Hazing, informed the Committee of three allegations of hazing that were reported. Of the three, only one warranted further investigation. Mr. Smith has been invited to be the keynote speaker for the 2013 NASPA Anti-Hazing Summit, October 17, 2013, at the University of Central Florida.

The Committee heard that the Office of Communications had been working on several initiatives related to the Anti-hazing Plan, under the marketing and communications section. Meetings have continued with DKC regarding many of the national interviews related to the return of the FAMU Marching Band. A review of the communications plan by the PR Firm Edelman concluded that FAMU needs an expanded infrastructure to control the conversations about the university on social media. Edelman concluded that FAMU must: capitalize on the strength of its faculty and educational programs, to make academics the focus in public discussions; mobilize FAMU supporters to advocate and share news on the university’s behalf; and, increase effectiveness of FAMU Communications Infrastructure and channels.

Trustee Shannon indicated that the Trustees had an opportunity to meet with Head Football Coach Earl Holmes. During the meeting, the Board was informed that the condition of the athletic facilities was adversely affecting the football program. Dr. Robinson suggested that the Board should look at the BOT approved University Work Plan and Annual Goals, in creating his goals. The Committee agreed.

The Committee asked Dr. Robinson to use the general directives identified by the Committee and come back to the Committee with objectives and strategies as to how they will be achieved.
