The Trustees asked the University to see if there are any additional resources that can be provided to the department.

AUDIT COMMITTEE
Chairman Badger recognized Trustee Alston for the committee report. Trustee White noted that the committee heard from Interim Vice President Rick Givens that the Division of Audit and Compliance’s (DAC) audit charter is being changed to conform to the Institute of Internal Auditors model charter. The needs of the Division are currently being evaluated to ensure that there are sufficient resources to address the high risk areas. **Trustee Turnbull moved that the Board of Trustees approve the proposed 2012-2013 academic calendar. Trustee Montgomery seconded the motion and it carried.**

The Committee heard from the University’s SACS Liaison, Dr. Maurice Edington, who presented the item regarding approval to notice an amendment of Regulation 4.101 “Grading Policies.” This regulation was revised to provide parameters regarding when an “I” grade changes to an “F”. Further, the regulation created a new “PN” grade that will only be used in the physical therapy graduate program and incorporated new guidelines for changing a recorded grade. This regulation

Trustee Alston moved that the board approve the amendments and changes to Regulation 2.028 on Anti-Hazing. Trustee Shannon seconded the motion and it was approved.

FACILITIES COMMITTEE
Chairman Badger recognized Trustee McWilliams for the report of the Facilities Planning Committee which includes one (1) action item and several updates. The Facilities Planning Committee heard a presentation from the City of Tallahassee regarding a change in the route of the extension of FAMU Way. The old route travelled west to the intersection at the corner of with Lake Bradford
Road and Jackson Bluff. The new route travels west and then southwest to join Gamble Street to intersect at Lake Bradford Road. The new route is more favorable to the University’s plans.

In a matter also related to FAMU Way, Attorney Self shared that the City of Tallahassee was requesting an easement, along FAMU Way, to facilitate the beautification, expansion, and extension of FAMU Way. The easement will encroach on University leased property for the length of FAMU Way between Wahnish Way and Martin Luther King Jr. Boulevard and for widths varying between 30 feet and 49 feet.

The Trustees of the Internal Improvement Trust Fund of the State of Florida ultimately must approve the easement. Before giving its consent, the Trustees of the Internal Improvement Trust Fund require the University, as the tenant of the property, to consent to the easement. The granting of the easement will have no adverse impacts on the University’s existing and long term plans.

**Trustee McWilliams moved that the FAMU Board of Trustees resolved to express, to the Trustees of the Internal Improvement Trust Fund of the State of Florida, that the FAMU Board of Trustees consented to the right-of-way easement in favor of the City of Tallahassee, Florida as set forth substantially on Composite Exhibit “A” and Exhibit “B”. The motion was seconded by Trustee Shannon and it carried.**

The committee heard from Vice President Hardee, who stated that she shared her thoughts about new ways of financing facilities at the next Facilities Committee meeting. She then provided a status report on the 800-bed residence hall project. The abatement and demolition for the site have been completed and the Board of Governors has granted approval to move forward with issuing the bonds. The Governor and his Cabinet scheduled this item for approval at its meeting of April 24, 2012. In the meanwhile, the Housing Department will provide additional funding to start the foundation work and keep the project on schedule for occupancy in the Fall of 2013.

Mr. Samuel Houston, Director of the Facilities Planning and Construction Department, presented updates on the status of ongoing major construction projects and the Master Plan. Mr. Houston noted that no one attended the first public hearing that was held on March 29, 2012. Committee members suggested that special efforts be made to get the stakeholders to participate in the public forums.
Finally, given the challenges with traditional funding sources, I asked the staff to discuss innovative ways of funding and improving campus facilities at the next Facilities Committee meeting.
