SUMMER 2010 CLIMATE FELLOWSHIPS

FAMU Division of Research, Tallahassee, FL— The highly competitive Clean Air-Cool Planet Climate Fellowship program pairs outstanding students with challenging real-world opportunities to propel society toward a low-carbon future. Highly qualified graduate and undergraduate students in fields ranging from the humanities to environmental policy or economics to statistics, engineering, physical or biological sciences complete important, challenging, and in-depth projects. Applications will be accepted until midnight on January 31st, 2010.

Placements run for ten weeks, between May and August, 2010, and include a $5000 stipend. For detailed descriptions of the 2010 fellowship opportunities and application instructions, see:

FLORIDA A&M UNIVERSITY (FAMU) is one of the nation's largest, single-campus Historically Black Colleges and Universities (HBCUs). Located in Tallahassee, Florida, it was established in 1887 as a land-grant institution. Today, FAMU has an enrollment of approximately 12,000 students who are matriculating in one of the 13 schools, colleges and one institute. FAMU is the top producer of African-American educators, pharmacists and Ph.D. physicists in the nation. For more information, please visit www.famu.edu (click on RESEARCH link).
