1.0 GENERAL INFORMATION

The purpose of this procedure is to provide guidelines, specifically for the payment of additional compensation on federal sponsored projects for work in excess of the established institutional full-time equivalent (FTE) for a position. Uniform Guidance (UG) §200.430 states that, costs of compensation are allowable to the extent they satisfy the specific requirements of this part, and the total compensation for individual employees:

1.2 Is reasonable for the services rendered and conforms to the established written policy and of the non-Federal entity consistently applied to both Federal and non-Federal activities;

1.3 Follows an appointment made in accordance with a non-Federal entity’s laws and/or rules or written policies and meets the requirements of Federal statute, where applicable; and

1.4 Is determined and supported as provided in paragraph (i) of UG §200.430 section, Standards for Documentation of Personnel Expenses, when applicable.

Extra compensation is allowed under state regulations and BOT policy. All FAMU employees must follow federal, state, Board of Trustees (BOT) and institutional policies and procedures and terms, conditions of sponsored awards. Advanced approvals are required if applicable to the sponsored project concerning use of federal funds for extra compensation. Extra compensation may be paid, when the following conditions are met:

- The work is carried in addition to a normal full load;
- No qualified person is available to carry the work as part of his/her normal load; and
- The additional University employment duties are not so heavy as to interfere with the performance of regular duties.
Extra compensation is subject to FAMU compensation policies for services above and beyond the Institution’s Based Salary (IBS). These costs must be considered reasonable to the extent that it is consistent with that paid for similar work in other activities at the University. In cases where the kinds of employees required for Federal awards are not found in the other activities of the University, compensation will be considered reasonable to the extent that it is comparable to that paid for similar work in the labor market in which FAMU competes for the kind of employees involved. Non-exempt and Other Personnel Support (OPS) employees are subject to the Fair Labor Standards act and may receive compensation at time and one-half for combined workweek hours in excess of 40. Cost of the overtime pay must be allocated proportionately across all accounts paying the salary for a given pay period.
