

Regulation of

Florida A&M University

4.001 Curriculum Requirements.

Each college, school and/or academic unit within the University establishes curriculum standards and requirements for students, as approved by the appropriate committees and officers of the college, school or unit and of the University and published in the current General University Catalog. Students are required to meet the curriculum standards and requirements set forth for their course of study in the University Catalog at the time of enrollment for a continuous period of study. Should the students interrupt their course of study in any manner and for any reason, different standards and requirements may be in effect at the time of re-enrollment. Such an interruption may include absence from the University for a length of time requiring re-admission. Students not enrolled during two consecutive terms (exclusive of the summer term), must apply for re-admission to the university.
