| ACT | 20 | 19 | 19 | 20 | 19 | 20 | 21 | 21 | 20 |

Retention and Graduation Rates

The following table reflects the University's overall retention and graduation rates of first-time-in-college students (FTICs) enrolled for the given fall semester. The data provide the persistence rate of students the ensuing fall semester. With the fall 2009 cohorts, returning in fall 2010, there was a 3.7% increase in retention rates when compared to students entering in fall 2008. Beginning in 2010, (as part of the Board of Governors Annual Report and University Work Plan), the University has established as one of its goals the intent to increase the persistence/retention rate of undergraduate students, leading to increased graduation rates.

Second Year Retention of Full-Time First-Time-in-College (FTIC) Cohorts

Source: BOG Accountability Report

The following table shows the success rates (i.e. students still enrolled plus those who had graduated during that period) at the end of a six year period for each cohort entering each fall semester. The goal of the University is to increase the overall retention rate by at least one percentage point per year.

Six-Year Graduation Rates of FTIC Cohorts

| METRIC | Fall 2001 | Fall 2002 | Fall 2003 | Fall 2004 | Fall 2005 | Fall 2006 | Fall 2007 |

<u>Enrollment</u>

The University monitors the effectiveness in achieving its mission and goals on the Strategic Plan and informing decision-making related to strategic priorities. For example, the enrollment data for fall 2005 through fall 2007 and fall 2012 and fall 2013 indicate a decrease in enrollment. Based on the data, the University enhanced its recruitment and retention efforts.

In fall 2010, the University experienced its highest enrollment with 13,277 students. This was an 8.2% increase from the previous fall semester. In fall 2013, due to the impact of the adverse publicity surrounding the hazing incident and SACSCOC probation, the University enrollment declined by 10.9% compared to the previous fall enrollment. The University has implemented several recruitment strategies and initiatives to increase student enrollment.

The following tables provide information on student enrollment by: classification level, by ethnic origin, by residency, and by full-time/part-time status. In fall 2013, eighty-two percent (82%) of the student population are classified as undergraduates. The University's goal is to increase its graduate enrollment level to 20% of the student population. However, in fall 2013, the graduate student enrollment was 17% of the total student population. In fall 2013, 89% of students enrolled are full-time; the ethnic distribution of students was: 90% African American, 4.9% White, 1.09% Asian, 1.27% Non-Resident Alien and 2% Hispanic.

Number of Degrees Awarded

Florida A&M University continues to remain one of the top producers of African American students earning baccalaureate degrees. According to the most recent Diverse Issues Top 100 Degree Producers, FAMU is ranked as one of the top 10 producers of African American baccalaureates in 2010-2011 for the following fields: Health Professions and Related Programs (3); Health and Medical Administrative Services (ranked #4 for African American graduates and #7 total degrees awarded to all minorities); History (4); Homeland Security, Law Enforcement, Firefighting and Related Protective Services (6); Agriculture and Related Sciences (7); Visual and Performing Arts (8); Engineering Technologies (9); and Communication and Journalism (10). For all disciplines combined, FAMU is ranked #4 for the total number of baccalaureate degrees awarded to African Americans in the 2010-2011 academic year.

In the production of graduate degrees at the master's level, FAMU also ranks in the top 10 producers of African American students for the following areas: Physical Sciences (1); Social Sciences (ranked #1 for African American graduates and #2 total degrees awarded to all minorities); Architecture and Related Services (5); and Rehabilitation and Therapeutic Professions (5). In the same academic year, FAMU ranked in the top 10 producers of doctoral degrees awarded to African Americans in Engineering (7) and Health Professions and Related Programs (8).

For professional degrees, FAMU ranked #1 in the number of degrees awarded to African Americans in Pharmacy, Pharmaceutical Sciences, and Administration. For all minorities combined, FAMU was ranked #7 in the nation for producers of first professional graduates in Pharmacy, Pharmaceutical Sciences, and Administration. In the field of Rehabilitation and Therapeutic Professions, FAMU ranked #3 in degrees awarded to African Americans and also ranked #5 in degrees awarded to African Americans in Law. For all disciplines combined, FAMU ranked #2 in the nation by Diverse Issues in the production of African American graduates earning a first professional degree.

Residential Facilities

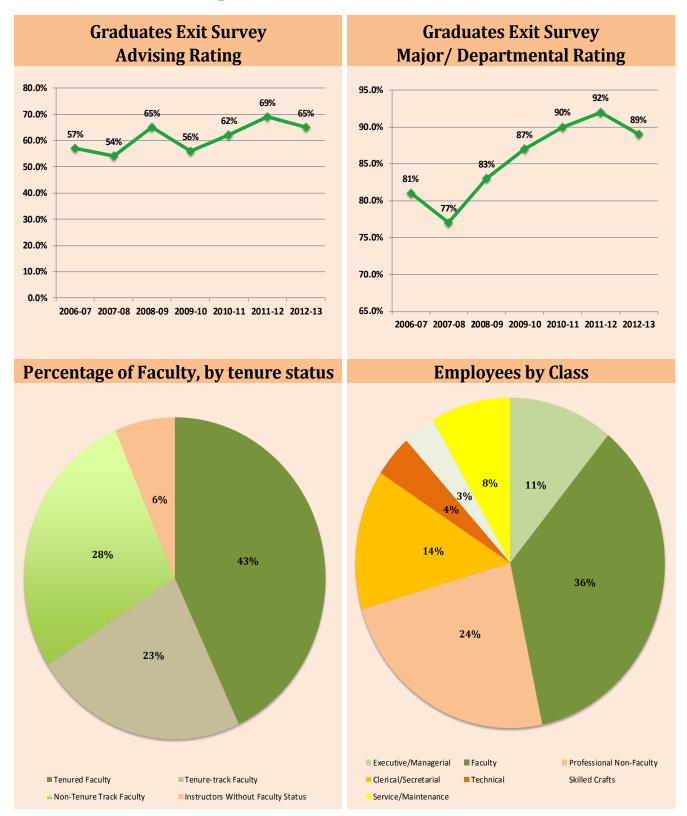

Several residential facilities have been renovated over the past five years. The old Polkinghorne Village which was constructed in 1967 for military veterans and families will be the site of a new 800-bed facility beginning scheduled for opening in fall 2014. The goal of the University is to have at least 3,400 beds by year 2020. By achieving this goal, the University will improve retention, progression and graduation rates of our students.

Strategic Initiative 2: Enable excellence in University processes and procedures

Key Accountability Indicators

Customer Service

The University engages in initiatives to improve and assess its effectiveness of customer service.

Registration Process Enhancement Initiative

The University continues to conduct the One Stop Shop Registration Process. The purpose of the One-Stop-Shop is to improve the efficiency and effectiveness of the registration process by housing all of the critical areas in one facility. Students are able to address registration issues such as, email and iRattler access, receive academic advisement, address financial aid and student account issues, register for classes and submit University required forms.

Graduates Exit Survey Results-Monitoring and Assessment

Exit Surveys are used by the University to gather information on the college experience and the long-term impact to the students. The Exit Survey is designed to provide information about graduating students on both undergraduate and graduate levels by soliciting feedback regarding their experiences at FAMU and their future plans. Each semester, the University conducts an online survey for all graduating students. The following data indicates that the University is gradually improving in each business process area, with a goal of at least an 85% overall satisfaction rating in each area listed.

Research Activity

The Division of Research (DoR) organized a series of workshops, presentations and discussions regarding research opportunities and the commercialization of research at the University. In 2012-13, faculty submitted 198 proposals, and received 193 new contract and grants awards totaling in excess of \$42 million, an increase of 5.5% from the previous year.

Since 2010, the Division sponsors an awards program to recognize faculty members who have demonstrated outstanding achievements in research and scholarly activities. The categories are: Distinguished Researcher Award, Research Excellence Award and Emerging Researcher Award.

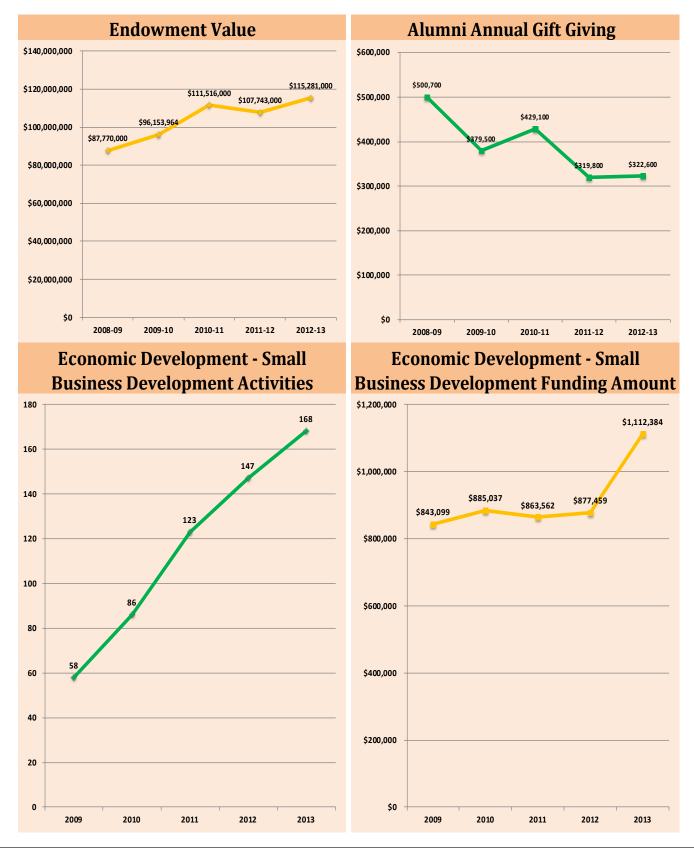

The following table provides Sponsored Research activities for the past seven years:

| | 2006-07 | 2007-08 | 2008-09 | 2009-10 | 2010-11 | 2011-12 | 2012-13 |

Strategic Initiative 4: Enable excellence in University Relations and Development

Key Accountability Indicators

Foundation and Alumni Giving

Several new strategies and fundraising initiatives were launched by the University to strengthen its corporate relations and to increase the philanthropic support and the endowment of the FAMU Foundation. Under the auspices of the Division of University Relations, relationships and involvement with the Industry Cluster partners were enhanced. The following tables depict the University's performance in these arenas.

| indo in intente di | | | | | | | |

<u>Economic Development – FAMU Small Business Center</u>

In 2013, the Center delivered 3,364 of direct consulting hours (prep + contact). This was nearly double the amount of the previous year and above the total hour goal of 2,227 (151.08%). In terms of market segment breakup, goals for Pre-venture were slightly down, with Start-up and Micro Business client hourly goals met. There was a significant increase in consulting hours for Small and Medium Enterprises (SME's) (1,899 hours achieved against a goal of 557 hours – 341%). This reflects the change towards a greater percentage of Micro and SME clients and a focus on declining the percentage of Pre-Venture and Start-up businesses.

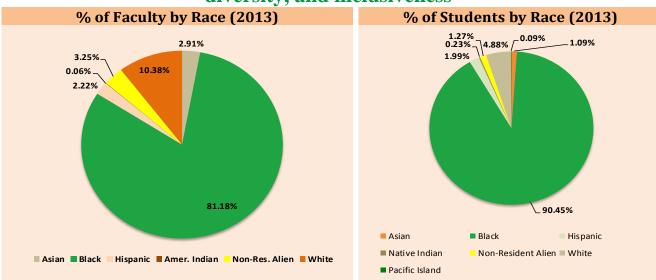

The Center has experienced an increase in the number of economic development activities (95% over a three-year period) and funding from State and Federal sources (29% over a three-year period).

Key Accountability Indicators

Diversity of Faculty, Staff and Students

While the University continues its historic mission of educating African Americans, persons of all races, ethnic origins and nationalities are welcomed and encouraged to remain life-long members of the university community. The University, through its diverse faculty and staff, provides a caring, nurturing, collegial and respectful environment. Diversity is one of the University's core values, an essential element to the achievement of the University's mission: Scholarship, Fiscal Responsibility, Diversity, Courage, Collegiality, Excellence, Accountability, Service, Integrity, Freedom, Openness, Collaboration, Fairness, Respect, and Ethics.

Degree Production in areas of Strategic Emphasis (as defined by the Board of Governors)

A significant percentage of the University's graduates are in the STEM and health fields. The following tables indicate the proportions of graduates, at the baccalaureate and graduate levels, in these fields as well as the percent of graduates from all the BOG strategic areas of emphasis identified in the SUS Annual Reports.

Baccalaureate Degrees Awarded in Programs of Strategic Emphasis

International Awareness and Involvement

The University supports and promotes internationalization through the incorporation of international curriculum support and academic enhancement activities related to teaching, research, and public service. The University offers services to students, faculty, and staff through the International Student and Scholar Services, International Education and Exchange Programs, and International Research and Development. Additionally, the University offers several programs and activities to enhance the overall educational experience of international students and scholars at the University. The University offers international experiences through the following programs:

- 1. The Education Abroad and Exchange Program which provides FAMU students an array of resources to help them identify opportunities for study, travel, and work abroad.
- 2. The Diplomat-in-Residence Program, a program supported by the United States Department of State which to encourage students to pursue careers in Foreign Services.
- 3. International Research and Development Program facilitates the development of international collaborative projects by providing technical assistance to faculty and staff to enable FAMU faculty, staff, and students to become involved in international collaborative research and development activities.

The University continues to strengthen and expand the international dimension of outreach and service. The following table shows the number of activities yearly, workshops and training opportunities for faculty and staff, and the number of international fellowships awarded to graduate students.

| | 2006-07 | 2007-08 | 2008-09 | 2009-10 | 2010-11 | 2011-12 | 2012-13 | 2013-14 |

Intensive English Language Program

In June 2013, the Division of Continuing Education launched the Intensive English Program (IEP). The IEP is a non-credit English language program specifically offered to students at the postsecondary level to enhance their language skills for personal growth and development and to prepare them for academic studies. The IEP focuses on preparing students to reach the level of proficiency required to pass entrance examinations such as the GRE/GMAT/IELTS/MELAB/TOEFL and thereby apply to the University for formal admission to pursue a degree and/or take courses for academic credit. To date, the program has served 32 students.
