Concentrations

Long-Term Care Administration Track:
In order to fulfill the requirements of the long-term care management track and to prepare for the State of Florida nursing home administration licensure examination, a student majoring in Health Care Management must, in addition to completing the general curriculum, take the following courses:

- HSA 3222 Long-term Care Management .................................................................3
- HSA 4183 Applied Management in Long-term Care .................................................3
- SYP 4730 Aging America .........................................................................................3
- SYO 3400 Medical Sociology ....................................................................................3

Rehabilitation Services Administration Track:
In order to fulfill the requirements for a concentration in Rehabilitation Services Management, a student majoring in Health Care Management must in addition to completing the general curriculum, take the following courses:

- RCS 3700 Disability and Society ................................................................................3
- RCS 3030 Introduction to Rehabilitation ......................................................................3
- RCS 4060 Psychological Aspects of Disability ............................................................3
- RCS 4200 Introduction to Vocational Evaluation .......................................................3
- RCS 4610 Supervision and Coordination of Vocational Rehabilitation .....................3

Internship Experience
Each student, upon acceptance into the Healthcare Management program, is required to participate in a six-week management affiliation (internship) in a health care facility. The student’s preferences of the choice of the facility are considered; however, the faculty reserves the right to select alternative affiliation sites which serve the best interests and needs of the student to complete the education requirements.
