### Course Description
This course examines the role of exercise in rehabilitating prevalent disabilities in children; fundamental concepts of adjustment and development of special needs persons. Ten (10) hours of laboratory experiences in various settings.

### Course Purpose
This course is structured for prospective teachers, in-service teachers, and persons who are going to select, organize, and conduct physical education for individuals with disabilities. This course will assist students with teaching based on an Individualized Education Program (IEP). Students will also be able to understand the interrelatedness of the IEP and how it applies to physical education programming for individuals with special needs.

### Conceptual Framework
The Conceptual Framework in the Professional Education Unit (PEU) at Florida A&M University is an integrated approach to providing educational experiences that result in exemplary professional educators. The Framework is comprised of six themes with the mission of developing high quality classroom teachers, administrators and support personnel. The term “exemplary” refers to the kind of graduates the PEU strives to produce. The figure below provides a diagram of the Exemplary Professional Conceptual Framework.

URBAN/RURAL EDUCATION

• CF6
  • Through this focal area, the FAMU professional education candidate will:

| CF: 6.1 (S) | Be able to work in school settings with varied levels of human and material resources. | F: 9,10,11 | I: 10 |
| CF: 6.4 (S) | Communicate effectively with students’ parents and the community. | F: 5,11 | I: 6 |

Overall Goals of the Course

1. To acquire an understanding of the sources of dysfunctions and characteristics of typical performance. (FEAP 5)
2. To acquire the ability to plan appropriate learning experiences and challenges for students to achieve their maximum potential.
3. To apply principles and techniques of assessment relative to motor performance of individuals with disabilities. (CF 4.1)
4. To acquire the ability to adapt teaching methods and strategies to meet the needs, limitations, and capabilities of individuals with disabilities. (CF 3.3)
5. To develop an understanding and sensitivity to the diverse challenges of individuals with disabilities.
6. To understand, define, and describe ADA requirements related to facility usage and client accommodations (FEAP 5) (CF 1.3,1.4,1.5)

Specific Behavioral Objectives

1. To understand structural considerations with designing a facility that meets ADA requirements thus suited for individual with disabilities.
2. To define and describe the history and current status of physical education for individuals with disabilities. (CF 1.1)
3. To identify legal mandates for physical education and sport for individuals with disabilities. (NASPE 1.4, 3.6)

4. To identify various professional roles in adapted physical education.
5. To identify and describe neuro-developmental disorders. (CF 5.1) (FEAP 8)
6. To explain the significance of each level of growth and development and cite examples of possible disorders.
7. To identify terminology, etiology, and characteristics related to individuals with varied mental, physical, emotional, and severe impairments.
8. To demonstrate an understanding of the applications of observation, performance testing, and direct measures. (FEAP 8)
9. To describe the fundamentals of test administration.
10. To compare and contrast the value of norm-referenced and criterion-referenced standards of testing for the placement of students with special needs. (NASPE 5.1) (FEAP4)
11. To list the steps (procedure) for writing an Individualized Education Program (IEP). (FEAP 8,10) (FTCE 3.1, 3.5)
12. To develop short-term performance objectives given current levels of performance.
13. To discuss considerations to be made when sequencing instruction. (FEAP 10) (FTCE 3.4)
14. To list factors (five) that directly or indirectly influence motor performance (FEAP 8) (FTCE 4)
15. To utilize appropriate behavior management techniques in specific situations. (NASPE 4.4) (FTCE 9)
16. To develop appropriate goals and performance objectives for individuals with disabilities/special needs. (NASPE 3.7,3.6,5.1)

**National and State Standards Addressed in the Course**

**Interstate New Teacher Assessment and Support Consortium (INTASC) Standards**

**Standard 1: Subject Matter**
The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and can create learning experiences that make these aspects of subject matter meaningful for students.

**Standard 2: Student Learning**
The teacher understands how children and youth learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.

**Standard 3: Diverse Learners**
The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to learners from diverse cultural backgrounds and with exceptionalities.

**Standard 4: Instructional Strategies**
The teacher understands and uses a variety of instructional strategies to encourage students' development of critical thinking, problem solving, and performance skills.

**Standard 5: Learning Environment**
The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.

**Standard 6: Communication**
The teacher uses knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the classroom.

**Standard 7: Planning Instruction**
The teacher plans and manages instruction based upon knowledge of subject matter, students, the community, and curriculum goals.

**Standard 8: Assessment**
The teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social and physical development of the learner.

**Standard 9: Reflection and Professional Development**
The teacher is a reflective practitioner who continually evaluates the effects of her/his choices and actions on others (students, parents, and other professionals in the learning community) and who actively seeks out opportunities to grow professionally.

4.2 Provide effective instructional feedback for skill acquisition, student learning, and motivation

4.3 Recognize the changing dynamics of the environment and adjust instructional tasks based on student responses

4.4 Utilize managerial rules, routines, and transitions to create and maintain an effective learning environment

4.5 Implement strategies to help students demonstrate responsible personal and social behaviors in a productive learning environment

Standard 5: Impact on Student Learning

5.1 Select or create appropriate assessments that will measure student achievement of goals and objectives

5.2 Use appropriate assessments to evaluate student learning before, during, and after instruction

5.3 Utilize the reflective cycle to implement change in teacher performance, student learning, and instructional goals and decisions

Standard 6: Professionalism

6.1 Demonstrate behaviors that are consistent with the belief that all students can become physically educated individuals

6.2 Participate in activities that enhance collaboration and lead to professional growth and development

Demonstrate behaviors that are consistent with the professional ethics of highly qualified teachers

6.4 Communicate in ways that convey respect and sensitivity

Florida Educator Accomplished Practices (FEAPs)

1. ASSESSMENT

1.1 The preprofessional teacher collects and uses data gathered from a variety of sources. These sources include both traditional and alternate assessment strategies. Furthermore, the teacher can identify and match the students’ instructional plans with their cognitive, social, linguistic, cultural, emotional, and physical needs.

2. COMMUNICATION

2.1 The preprofessional teacher recognizes the need for effective communication in the classroom and is in the process of acquiring techniques which she/he will use in the classroom.

3. CONTINUOUS IMPROVEMENT

3.1 The preprofessional teacher realizes that she/he is in the initial stages of a lifelong learning process and that self-reflection is one of the key components of that process. While her/his concentration is, of necessity, inward and personal, the role of colleagues and school-based improvement activities increases as time passes. The teacher’s continued professional improvement is characterized by self-reflection, working with immediate colleagues and teammates, and meeting the goals of a personal professional development plan.

4. CRITICAL THINKING

4.1 The preprofessional teacher is acquiring performance assessment techniques and strategies that measure higher order thinking skills in students and is building a repertoire of realistic projects and problem-solving activities designed to assist all students in demonstrating their ability to think creatively.

F=Florida Educator Accomplished Practices Standards (FEAPS)
I=Interstate New Teacher Assessment and Support Consortium Standards (INTASC)
(K)=Knowledge (S) Skill (D)=Disposition

Approved/Revised 10/30/07
5. **DIVERSITY**
5.1 The preprofessional teacher establishes a comfortable environment which accepts and fosters diversity. The teacher must demonstrate knowledge and awareness of varied cultures and linguistic backgrounds. The teacher creates a climate of openness, inquiry, and support by practicing strategies such as acceptance, tolerance, resolution, and mediation.

6. **ETHICS**
6.1 The preprofessional adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida.

7. **HUMAN DEVELOPMENT AND LEARNING**
7.1 Drawing upon well established human development/learning theories and concepts and a variety of information about students, the preprofessional teacher plans instructional activities.

8. **KNOWLEDGE OF SUBJECT MATTER**
8.1 The preprofessional teacher has a basic understanding of the subject field and is beginning to understand that the subject is linked to other disciplines and can be applied to real-world integrated settings. The teacher’s repertoire of teaching skills includes a variety of means to assist student acquisition of new knowledge and skills using that knowledge.

9. **LEARNING ENVIRONMENTS**
9.1 The preprofessional teacher understands the importance of setting up effective learning environments and has techniques and strategies to use to do so including some that provide opportunities for student input into the processes. The teacher understands that she/he will need a variety of techniques and work to increase his/her knowledge and skills.

10. **PLANNING**
10.1 Recognizing the importance of setting high expectations for all students, the preprofessional teacher works with other professionals to design learning experiences that meet students’ needs and interests. The teacher candidate continually seeks advice/information from appropriate resources (including feedback), interprets the information, and modifies her/his plans appropriately. Planned instruction incorporates a creative environment and utilizes varied and motivational strategies and multiple resources for providing comprehensive instruction for all students. Upon reflection, the teacher continuously refines outcome assessment and learning experiences.

11. **ROLE OF THE TEACHER**
11.1 The preprofessional teacher communicates and works cooperatively with families and colleagues to improve the educational experiences at the school.

12. **TECHNOLOGY**
12.1 The preprofessional teacher uses technology as available at the school site and as appropriate to the learner. She/he provides students with opportunities to actively use technology and facilitates access to the use of electronic resources. The teacher also uses technology to manage, evaluate, and improve instruction.

Physical Education K-12

1 **Knowledge of the history and philosophy of physical education as a profession**

   1. Identify historical events and trends that have influenced the profession.
   
   2. Relate goals and values for physical education to the philosophies of education that they reflect.

2 **Knowledge of curricular theory and development**

   1. Identify the characteristics of various curriculum models.
   
   2. Identify various factors to consider in curriculum planning, such as students’ time, environment, equipment, facilities, space, and community resources.
   
   3. Identify ways that national and state documents, standards, benchmarks, trends, and philosophies can be used to design and develop curricula.
   
   4. Identify principles of long- and short-term planning to maximize learner participation and success.
   
   5. Identify common concepts and content within physical education and other curriculum areas that promote interdisciplinary learning.

3 **Knowledge of instructional strategies**

   1. Identify strategies and adaptations that meet the needs of a diverse student population.
   
   2. Identify various organizational strategies that promote maximum participation.
   
   3. Identify teaching styles, communication delivery systems, and materials that facilitate learning.
   
   4. Identify and apply motivational theories and techniques that enhance student learning.
   
   5. Apply developmentally appropriate instructional strategies, techniques, and teaching methods that promote student learning.
   
   6. Identify a variety of self-assessment and problem-solving strategies inherent in reflective teaching.
   
   7. Identify the role of feedback in facilitating learning.

4 **Knowledge of human growth, motor development, and motor learning related to physical activity**

   1. Determine the relationship between human growth and development and appropriate physical activity.
   
   2. Apply learning and human development theories to construct a positive learning environment that supports psychomotor, cognitive, and affective development.
   
   3. Apply motor development and motor learning principles to the acquisition of motor skills.

5 Knowledge of skill and movement principles in physical activity

1. Identify and apply the concepts of spatial awareness, body awareness, relationships, and effort qualities as they relate to movement forms.

2. Identify the fundamental movement patterns, including locomotor, nonlocomotor, and manipulative skills, as applied to movement forms.

3. Identify sequentially progressive activities that promote the acquisition of psychomotor, cognitive, and affective skills.

4. Identify appropriate cues, prompts, and strategies for teaching motor skills.

5. Apply mechanical principles of motion to movement forms.

6. Identify strategies to develop correct skill performance.

7. Analyze the mechanics of a skill or sequence of movements and identify ways in which the performer can improve the performance.

8. Identify how components of skill-related fitness affect performance.

6 Knowledge of health and wellness and its relationship to physical activity

1. Analyze health-related components of physical fitness.

2. Interpret data from physical fitness assessments for diagnosis and prescription.

3. Identify personal fitness programs that incorporate health-related components.

4. Identify components of nutrition.

5. Demonstrate knowledge of the relationship of nutrition and exercise in meeting the health needs of all students.

6. Identify health risks that can be reduced by physical activity.

7. Apply basic training principles and guidelines to improve physical fitness.

8. Identify exercises that benefit the major muscle groups of the body.

9. Identify how the structure and function of the human body adapt to physical activity.

10. Identify the physiological, psychological, and sociological benefits of physical activity.

11. Identify the contributions that physical education makes to lifelong physical activity and wellness.

12. Identify community resources that promote lifelong physical activity and wellness.

1. Identify assessment techniques, including authentic and traditional methods, for appropriate use within the cognitive domain.

2. Identify assessment techniques, including authentic and traditional methods, for appropriate use within the affective domain.

3. Identify assessment techniques, including authentic and traditional methods, for appropriate use within the psychomotor domain.

4. Select appropriate assessment strategies for curriculum design, lesson planning, student prescription, and program evaluation.

5. Interpret results of assessment for curriculum design, lesson planning, student prescription, and program evaluation.

6. Select methods of assessment appropriate for an inclusive environment.

9 Knowledge of supervision, management, and laws and legislation that apply to the learning environment

1. Identify procedures for selecting and maintaining appropriate equipment and facilities to enhance student learning.

2. Identify organizational strategies that enhance classroom management.

3. Identify supervisory and behavioral management techniques that enhance student learning.

4. Determine appropriate action for the care and prevention of injuries in physical education.

5. Identify major federal and state legislation that impacts physical education.

6. Identify areas of legal liability applicable to physical education.

7. Identify guidelines and actions that promote safety.

10 Knowledge of appropriate rules, strategies, and terminology

1. Apply appropriate rules and strategies of play to game and sport situations.

2. Identify terminology for various physical education activities.

11 Knowledge of professional development and advocacy strategies

1. Identify physical education professional organizations and activities that promote professional development.
2. Identify current professional literature, research, and other sources of information that enhance professional growth.

3. Identify ways to advocate the goals, objectives, and values of a comprehensive physical education program.
