The Conceptual Framework in the Professional Education Unit (PEU) at Florida A&M University is an integrated approach to providing educational experiences that result in exemplary professional educators. The Framework is comprised of six themes with the mission of developing high quality classroom teachers, administrators and support personnel. The term “exemplary” refers to the kind of graduates the PEU strives to produce. The figure below provides a diagram of the Exemplary Professional Conceptual Framework:

The Conceptual Framework for the FAMU PEU is grounded in a combination of directed, constructivist, developmental, and social learning theories derived from the writings of system theorists, educational philosophers, social scientists, practitioners, and developmental theorists. Concepts from these writers and from the varied educational learned societies help form the knowledge base for the unit’s curriculum components and principles of its Conceptual Framework.

This assignment is designed to allow you to demonstrate your general knowledge of current issues and trends in secondary education. To complete the assignment you will choose one article commensurate with the assigned topic and critique it in a comprehensive and personal way. The goal is to portray in a concise and effective manner the main points of the article and to bring in your own position with a wider perspective of approaches and theories that may be pertinent to the theme. Together with the in-class questions this is your opportunity to demonstrate an initial understanding of this vast educational field, its implications and its challenges and potential.

9-10 Excellent: Ideas of the article are presented accurately, thoroughly, and concisely. Methodology/research approach has been carefully described, considered and critiqued. Findings are clearly stated and shown to be personally relevant. Such writing suggests an analytic, reflective and imaginative mind at work. All requirements of assignment have been met.

7-8 Proficient: Ideas of the article are presented accurately. Omissions of content are minor. Redundancy/wordiness in summary is noted. Methodology/research approach is mentioned and critiqued. Findings stated are shown to be personally relevant. Such writing suggests analytic and reflective ability. Requirements of assignment have been met.

5-6 Satisfactory: Major/key ideas of the article are presented. Omissions/inaccuracies of content are minor. Redundancy/wordiness in summary is noted. Methodology/research approach is mentioned. Critique of the article is present. Findings stated are shown to be personally relevant. Such writing suggests acceptable analytic and reflective ability. Most requirements of assignment have been met.

4-3 Limited: Major/key ideas of the article were not presented. Omissions/inaccuracies of content are major. Redundancy/wordiness interferes with the reader’s ability to grasp the main ideas of the summary. Methodology/research approach is weak and uncritiqued. Findings are not stated and personal relevance to the findings is not included. Such writing suggests more effort, editing and analytic ability are required. Requirements of assignment have not been met.

2-1 Poor: Major ideas mentioned are only marginally relevant and are largely undeveloped. Critique is inappropriate or lacking. Such writing suggests a lack of effort or ability.
