Quality Counts 2010: The New Surge Toward Common Standards

*Quality Counts 2010* explores the widening national debate over common academic standards. Join the report’s authors for an in-depth discussion of what they discovered through their research and reporting, as well as the EPE Research Center’s annual updates in four key areas of education policy and performance.

**Guests:**
Christopher B. Swanson, vice president of research and development, Editorial Projects in Education
Amy M. Hightower, Quality Counts project director, EPE Research Center director
Mark Bomster, assistant managing editor, *Education Week*

The presentation will begin on **January 19, 2010 at 02:00 PM Eastern Standard Time.**

**Location:** Teaching Learning Institute, Gore Education Complex, Building C, Room 203
