SMART PARENT NOTES

We are planning for Kindergarten!!

We are requesting the extension of our program to the Kindergarten students as an amendment to our contract with the Department of Education. More information will be provided as soon as we gain approval. If you have a kindergarten student or know of one who would like to experience SMART, and is a FAMU DRS student, please let us know.

We may finally be able to service all grade levels of the FAMU DRS!!!

YEAH!!!

Project-Based Learning

SMART Academy will be participating in “Learning Through Observation” units this semester – most grade levels will use Crime Scene Investigation Themes.

A reminder:

We love to work with your child(ren). Please remember to have someone at school no later than 6:00 p.m. each day.

Also, for them to benefit from SMART, they need to remain with us for at least 1 and ½ hours.

Welcome to SMART Academy 2015!

We look forward to working with your children.

Dr. Rufus Ellis, Program Director
