Florida A&M University School of Business and Industry – Living-Learning Community

The Florida Agricultural and Mechanical University (FAMU) School of Business and Industry (SBI) Living-Learning Community (LLC) is a residential living environment for pre-business and pre-accounting majors. The Business and Industry Living-Learning Community is designed to immerse and inculcate students into the dynamic SBI culture and world of business. By living in this community, students will be exposed to curricular and extracurricular professional leadership development activities and academic enrichment experiences. Students will work with faculty, staff, and other students, which will enable them to develop lasting personal and professional networks.
