This memorandum is intended to explain the Library's arrangement with Yankee Book Peddler, Inc. (YBP) to provide selected publications on an approval basis.

The explanation is presented in three parts. Part I briefly describes the procedures which govern billing, shipment, account structure, discount, and returns of materials provided on approval. Part II outlines the technical support provided by YBP. Part III lists the instructions for coverage of specific continuation titles on the plan, the Approval Plan Publisher Profile or "press list," the plan's subject parameters, and the non-subject qualifiers which limit the plan.

Both the Library and YBP recognize that some changes to these guidelines may be necessary as the program evolves over a period of time. Any change in substance will be recorded in a written communication from YBP to the Library.

I. GENERAL PROCEDURES

A. Billing:

1. A 3-part invoice will be included in each shipment with books listed alphabetically by title. All approval invoices will be charged against the deposit account.

2. A 4-part bibliographic form will be included in each book for the Library's use.

3. The notation “APPROVAL” or “SLIP ORDERS” will appear on all invoices and shipping labels.

B. Shipment:

1. Shipments will include both books and notification slips (title announcements sent in lieu of a book). Unless specifically requested otherwise, one copy of each title will be shipped.

2. Shipments will be made via truck or United Parcel Service on a weekly basis. YBP will pay for shipping to the Library.

3. Materials will be shipped to the following address:

   Florida A&M University  
   Attn: Brenda Wright  
   1500 S. Martin L. King Blvd.  
   Tallahassee, FL 32307-4700
C. Account and Plan Structure:

The Library’s account structure is indicated in the table below. Sub-accounts shown in bold are associated with the approval plan.

<table>
<thead>
<tr>
<th>Sub-Account #</th>

<td></td>
<td>Processing invoicing for Special Projects</td>
</tr>
</tbody>
</table>

D. Discounts:

The Library will be billed at list, less 14% for materials available in North America. Occasionally, depending upon the presses selected for the approval plan, books may be given a service fee. Discounts announced on notification slips are not guaranteed, but are usually met.

E. Returns:

1. Under the provisions of this Approval Plan, YBP will ship to the Library books selected according to the press, subject and non-subject parameters described in Part II. The Library reserves the right to return titles which are deemed inappropriate to the Library's collection for reasons of content, subject, style, format, quality, etc.

2. Returns are not expected to exceed 10% once the approval plan has been refined.

3. Titles may be returned in resalable condition within 120 days of date of YBP invoice.

4. Returns must be shipped via UPS or insured mail.

F. Management Reports

Collection Management Reports can be submitted by the library via GOBI, YBP’s on-line collection management tool. Various report templates can provide expenditure reports according to the library’s specifications, as well as open order reports and other approval plan support materials such as press lists, and standing order instructions.

II. TECHNICAL SERVICE SPECIFICATIONS

A. GOBI

YBP’s GOBI (Global Online Bibliographic Information) databases and services via the World Wide Web are available to the Library without charge. GOBI provides a sophisticated acquisitions and collection development support system, with access to
querying, selection, ordering and reporting functions across YBP’s entire database of titles. The Library should contact their bibliographer-liaison to register for GOBI access.

B. Bibliographic, Cataloging, & Processing Services

The Library may in the future contract with YBP for the range of bibliographic, cataloging, and/or processing services specified in the Library’s YBP Technical Services Profile. The Technical Services Profile, in conjunction with the Memorandum of Agreement, details the specific services to be provided and the responsibilities of each partner. Success in the outsourcing of acquisitions and technical services requires ongoing consultation and a mutual commitment to working together to address issues and concerns as they arise.

III. APPROVAL PLAN SPECIFICATIONS

A. Continuations:

The Library Series Report (available via GOBI or upon request from your bibliographer-liaison) reflects the Library’s instructions to YBP for handling specific continuation titles on the approval plan. These title-specific instructions override all other profile elements.

“Book” indicates that all volumes of the continuation title will be supplied on the approval plan. “Slip” indicates that notification slips will be sent. “Exclude” indicates that all volumes of the continuation title will be excluded from coverage on the approval plan.

B. Presses:

The plan as initially specified will include all university press, trade, scholarly and professional publishers named on the Library’s Approval Plan Publisher Profile, or press list. The Library will be offered the publications of these and any new approval presses which may become active.

The subject and non-subject parameters below apply to all publishers covered by this Approval Plan.

C. Subject Parameters:

Materials offered on this plan will reflect the requirements of a university library supporting broad general programs and some advanced degrees.

Restrictions indicated on the subject parameters described below are due to both the developing nature of the plan and to priorities in the Library’s collecting policies.

The following subject parameters describe the subject focus of the plan. Books will be shipped automatically in subjects preceded by a "B". Notification slips will be sent in lieu of a book for all subjects preceded by an "S". Nothing will be shipped for all subjects preceded by an "X", except as indicated in the notes. Exceptions and clarifications to the general instruction for a subject are noted beneath the subject.
Special Collecting Interests: Several interdisciplinary study areas are of special interest to the library and books will be supplied in those areas regardless of the LC classification. Those study areas include:

Environmental topics.

Nursing topics.

Social work topics.
