About FCLA

The Florida Center for Library Automation (FCLA) provides automation services that assist the libraries of Florida’s publicly-funded universities in meeting their teaching and research objectives for students and faculty. The university system of Florida consists of ten universities, one college, twelve off-campus centers, seven agricultural research and education centers, and sixty-nine county cooperative extension programs located throughout the state.

To achieve this mission, FCLA provides computer services that assist the libraries in their daily operations and record keeping as well as providing students and faculty with electronic access to scholarly materials. These services include the operation of a share integrated Library Management System, licensing of electronic resources, and providing the repository and support for digital versions of library-owned collections. FCLA, located in Gainesville, Florida, is attached to the University of Florida.

The Universities are:
Florida A&M University, Tallahassee
Florida Atlantic University, Boca Raton
Florida Gulf Coast University, Ft. Myers
Florida International University, Miami
Florida State University, Tallahassee
New College of Florida, Sarasota
University of Central Florida, Orlando
University of Florida, Gainesville
University of North Florida, Jacksonville
