Are you a college student looking for an internship this summer? Are you looking to gain valuable hands-on experience? Do you want to work on challenging projects? Do you want to network with professionals to develop skills beyond what you can learn in a classroom? If yes, then an internship at Publix may be the perfect fit for you.

Our Summer Internships will occur from May 16th through July 29th at our company facilities in Lakeland, FL. Interns are offered competitive pay and are generally expected to work 40 hours per week, although this varies by department. We partner with Florida Southern College to provide housing for our out-of-town interns. As an intern, you will attend luncheons with Publix executives, participate in a local community service event, enjoy several after-work socials, receive performance evaluations twice during the summer to evaluate your progress, and give an end-of-summer presentation to a large group of Publix leaders. Interns leave Publix at the end of the summer knowing they have made a valuable contribution to the organization with an experience that helps them grow professionally and personally.

The primary responsibilities for this position include:

• design execution of projects, maintaining creative standards set forth by the Creative teams,
• repurposing established design solutions, resizing existing art or pulling existing files and preparing for reprint,
• photo retouching and compositing of files provided by Creative teams,
• preparing mechanicals and supporting art files for printing, delivery, and archiving,
• reviewing of printer’s proof,
• managing a workload, and
• working on special Creative Services related assignments.
