What types of recruitment efforts do you support that foster gender equity access to the College of Science and Technology? Why or why not?

- The college recently established a full-time STEM recruiter position, which is occupied by a woman. The recruiter conducts targeted recruitment activities throughout the State of Florida, and places special emphasis on recruiting women into the college's STEM programs.

List any objectives the CSA has developed to encourage gender equity?

- The CST Strategic Plan includes a strategy to develop targeted initiatives to recruit women into STEM disciplines in which they are underrepresented.
