**FLORIDA A & M UNIVERSITY
BOARD OF TRUSTEES**

IN RE: AUDIT AND COMPLIANCE
COMMITTEE MEETING.

COMMITTEE MEMBERS: KARL WHITE, CHAIR
 TOREY ALSTON
 ROBERT WOODY

DATE: TUESDAY, JULY 21, 2015

TIME: COMMENCED AT: 5:15 P.M.
 CONCLUDED AT: 5:45 P.M.

LOCATION: BAND REHEARSAL HALL
 FAMU CAMPUS
 TALLAHASSEE, FLORIDA

REPORTED BY: NANCY S. METZKE, RPR, FPR

AUDIT AND COMPLIANCE COMMITTEE

1
2
3 TRUSTEE WHITE: At this point, we will call
4 the Audit Committee meeting to order.

5 Ms. Barrington, can you please call the roll.

6 MS. BARRINGTON: Thank you. Good evening.

7 Trustee White.

8 TRUSTEE WHITE: Present.

9 MS. BARRINGTON: Trustee Alston.

10 TRUSTEE ALSTON: Here.

11 MS. BARRINGTON: Trustee McWilliams.

12 (NO RESPONSE).

13 MS. BARRINGTON: Trustee McWilliams.

14 (NO RESPONSE).

15 MS. BARRINGTON: Trustee Shannon.

16 (NO RESPONSE).

17 MS. BARRINGTON: Trustee Wood.

18 (NO RESPONSE).

19 TRUSTEE WHITE: We do not have a quorum.

20 Why don't we go ahead and go through the
21 informational items, and then I guess we will
22 schedule a called -- or deal with it in two weeks
23 because we have to -- we have to approve the risk
24 assessment.

25 So, Vice President Givens, why don't you take

1 us through the informational items, please.

2 VICE PRESIDENT GIVENS: Sure. All right.
3 Then let's go to -- in your materials, it would be
4 the dashboard information. Yes, that looks like
5 it, what we have up there now.

6 This just summarizes our activities that we
7 have going. You will see that we've completed the
8 grade-change audit follow-up that we had. It was
9 completed in June. There was one finding. We also
10 had suspended two projects. Those have been
11 started again relating to the IT functions and the
12 financial aid process review.

13 We also finished our audit of the P Card and
14 travel follow-up process. The findings in those
15 were distributed to the appropriate parties, and we
16 are awaiting management response on that before we
17 actually release the report, and we'll have a
18 follow-up on that at our next meeting.

19 We have also in process an investigation for
20 Pharmacy Phase 2 which has been contracted out to
21 an outside firm. They have drafted a report, and
22 we have reviewed that and we're going through the
23 process of getting some questions answered on that.
24 And, hopefully, we'll have that report released in
25 the next couple of weeks.

1 We also completed a band eligibility and
2 travel review, and there were no findings in that
3 audit. And we have started an audit of the
4 accounts payable process.

5 Just if we can move on, the grade change had
6 one finding. It was rated a yellow finding, which
7 is a moderate risk. Even though this was a
8 follow-up finding, or a follow-up audit -- well, if
9 you'll move on to the -- we'll get onto the detail
10 on that where it says grade change process.

11 You'll see that the audit was completed in
12 June. The one finding had to do with adding an
13 additional layer of security before the grades are
14 changed. There had been a process in place that
15 had been lost with the computer upgrade. The
16 University was looking at implementing that
17 process again, but it proved too costly to
18 implement, so the IT has developed a different
19 approach to add some additional of security. That
20 process is currently being tested and should be put
21 in place.

22 As I mentioned, the band eligibility review
23 disclosed no findings, so that meant that the
24 process that had been put in place to ensure that
25 band members are eligible, that they remain

1 eligible before they can participate in travel is
2 working, has been effective.

3 Also, if we move on to the best the --

4 TRUSTEE WHITE: Question from Trustee Grable.

5 TRUSTEE GRABLE: Thank you, Trustee White.

6 Vice President Givens, regarding that
7 investigation on grade changes, your
8 recommendations, did they include that this may be
9 helpful if we consider something online so we're
10 not dealing with that -- what is it? It's a triple
11 kind of form where one copy goes here, a copy goes
12 there. I have had some experience with that
13 grade-change form so I just wondered if that is one
14 of the things that you suggested.

15 VICE PRESIDENT GIVENS: We primarily were
16 looking just to see that there are controls in
17 place that would ensure that grades are not changed
18 without proper authorization.

19 TRUSTEE GRABLE: Okay.

20 VICE PRESIDENT GIVENS: We did not look at, is
21 this a good suggestion to follow up with.

22 TRUSTEE GRABLE: Okay. All right, and I can
23 follow-up with the Provost. Thank you.

24 VICE PRESIDENT GIVENS: Yes, ma'am.

25 And as far as the investigations that we have

1 going, for the year, we received 63 allegations.
2 Of those, we had issued 19 reports. We closed
3 eight with no investigation in that we felt like
4 there was not sufficient documentation provided to
5 us that we could investigate, or it just wasn't
6 specific enough.

7 We have 17 projects in process, and we
8 referred 11 to other departments within the
9 University, and we had eight that were pending
10 investigation.

11 And just to give you an idea, we estimated
12 there were about 80 different issues involved in
13 the allegations that we investigated. And we did
14 have a couple of very large investigations this
15 last year.

16 This table just gives you an idea of the
17 classifications of the issues that we investigated.
18 In the diversity equal opportunity and work place
19 respect, we had 22 allegations, which was
20 34 percent of the total, and you compare that to
21 38 percent in the prior year.

22 Environmental health and safety, we had one,
23 which was 2 percent compared to seven percent in
24 the prior year. For financial and business
25 integrity, we had 27 allegations. That was

1 44 percent of what we looked into in the
2 investigations, as compared to 31 percent last
3 year.

4 And then just for misuse or misappropriation
5 of assets, we had 13, which was 20 percent compared
6 to 24 percent in the prior year.

7 And we continue to spend a significant part of
8 our time in the investigation area at the expense
9 of doing some audits, but we do feel like it's
10 beneficial that we do this because these are very
11 specific areas where people have raised concerns.

12 As far as upcoming projects that we have, we
13 have started the accounts payable audit. We expect
14 to have that released sometime around October. And
15 we also have scheduled the audit of the performance
16 funding metrics. The Board of Governors has,
17 again, directed that this be done by all
18 Universities.

19 And I'd also like to talk about a proposed
20 Board of Governors' regulation that will require
21 some Board attention. It will necessitate that we
22 do some things differently as it relates to the
23 compliance area. This was, again, proposed; the
24 Board of Governors plans to take some action at
25 their next meeting in September. And my

1 understanding is it's very important to the Board
2 of Governors' Audit Committee Chairman.

3 The regulation itself requires that the Board
4 implement a comprehensive University compliance and
5 ethics program, and this is to promote compliance
6 with applicable laws, rules, and regulations. The
7 regulation prescribes that the program be developed
8 and implemented to address a number of areas that
9 includes the infrastructure policies and
10 procedures.

11 And this relates to providing that the Board
12 of Trustees has a certain amount of leeway in how
13 this is implemented, what policies and procedures
14 are developed to implement it. In other words, the
15 Board of Governors is not requiring any particular
16 structure for the compliance function, just that
17 the Board address it and maintain it.

18 The regulation also provides for some
19 effective oversight. It mandates that the program
20 avoid delegation of authority to unethical
21 individuals; requires a certain amount of
22 communication and education; and it requires
23 monitoring and auditing of the compliance
24 activities; and then lastly, it requires responses
25 to incidents and some preventive measures be

1 maintained.

2 The University -- I mean if we have
3 implemented the compliance function very similar to
4 most other SUS universities, in that we have staff
5 throughout the University who are responsible for
6 certain compliance areas such as the NCAA
7 compliance, ethics, ADA, EEO, research, Title 9.
8 The audit function generally has been restricted to
9 auditing the compliance activities.

10 We do a number of audits where we look at
11 compliance. It's incorporated in our audits, as
12 well as many of the investigations that we do
13 address compliance areas. But there has been no
14 comprehensive monitoring of the program other than
15 just the audits that have been done. So the
16 changes that are going to be required by the
17 regulation, if it's passed, will be that the
18 University does need a compliance officer that will
19 manage and oversee the compliance program.

20 Now the way that we have ours structured now
21 is the Vice President of Audit and Compliance is
22 the University's compliance officer, but with the
23 Board of Governors' proposed regulation and some of
24 the requirements to implement that causes some
25 conflict of interest issues, that must be

1 addressed.

2 Now the Board of Governors is not requiring
3 any particular structure, but they do require that
4 in cases where there are conflicts of interest,
5 that there be ways to mitigate that and remedy
6 that, and then there are some ways.

7 TRUSTEE WHITE: So let me just make a comment
8 there and just go back to an issue from this
9 morning. So you can see here that it's the Board
10 of Governors that is putting forth these changes
11 that will affect how we do audit and how we do
12 compliance.

13 VICE PRESIDENT GIVENS: That's correct.

14 TRUSTEE WHITE: That will almost, by
15 definition, mean that we are going to have to add
16 staff in the area of compliance. So to the point
17 that Trustee Grable raised this morning about where
18 there were additional positions in the equity
19 report, this is something that is just a direct --
20 will be a direct result of a change in the Board of
21 Governors' regulations about how we go about -- how
22 we go about doing both audit and compliance.

23 VICE PRESIDENT GIVENS: And it will require
24 some additional resources, in all likelihood, to be
25 able to implement the regulation as it's written

1 now.

2 TRUSTEE GRABLE: Thank you, Trustee White.

3 So that would indicate that that executive and
4 managerial -- okay, I got it.

5 TRUSTEE WHITE: Yeah, that's clearly
6 non-instructional.

7 TRUSTEE GRABLE: I'm happy to know that in
8 advance.

9 TRUSTEE WHITE: Yes, non-instructional.

10 TRUSTEE GRABLE: Okay. I got it.

11 TRUSTEE WHITE: Let me interrupt you for a
12 second. So I'm told that Trustee Woody may be
13 joining. So if we can move on to the NCAA, and
14 then we'll figure out since -- I'm on one of those
15 short leashes as well.

16 VICE PRESIDENT GIVENS: All right. And I will
17 just conclude that just by saying, we do have a
18 project in the audit plan that's in the risk
19 assessment that would address this compliance
20 issue.

21 Just a quick update on the NCAA investigation
22 that was conducted. The NCAA has completed its
23 investigation. They've issued a report that
24 identified three violations, and then also included
25 a finding for lack of monitoring the three

1 violations.

2 But the violations were that the University
3 didn't have the drug testing consent forms on file
4 for student athletes, there were some physical
5 forms that were not on file, and then also that the
6 University had not notified student athletes of
7 reductions or cancellations in the scholarships.

8 The NCAA proposed and the University has
9 agreed to process these violations through the
10 summary disposition process, which it was
11 beneficial to the University in that it let us
12 close this down fairly quickly. The time frame to
13 finish it out and have it completely behind us
14 would be sometime around the end of August. It
15 keeps the NCAA from looking any further at some of
16 the other issues.

17 And, really, with where we started with the
18 number of allegations that were made that started
19 this investigation, to come down to these three we
20 feel like is good for the University to go ahead
21 and close it out as is.

22 Now we did have the violations, and there will
23 be some penalties imposed. Part of the process is
24 that the University gets to recommend some of the
25 penalties, and because these are

1 administrative-type violations, the nature of the
2 penalties will be along the lines of possibly
3 probation, maybe two to three years; and possibly a
4 monetary fine. But it should not involve penalties
5 that would restrict recruiting or scholarship
6 reductions, penalties along those lines.

7 Are there any questions on that?

8 TRUSTEE WHITE: Trustee Woody, have you joined
9 us?

10 TRUSTEE WOODY: Yes, I am, I'm on.

11 TRUSTEE WHITE: Okay. So now we actually have
12 a quorum and we can -- let's deal with the risk
13 assessment since that is the most pressing issue.

14 VICE PRESIDENT GIVENS: All right. Every year
15 we do a risk assessment that helps us to develop
16 the Audit Plan. And the risk assessment comes to
17 the Audit Committee to be approved, along with the
18 Audit Plan, and the Audit Plan gives us the
19 direction for this upcoming year.

20 And the objective is just to align the
21 resources with the processes that pose the highest
22 risk. And the process we used this year was very
23 similar to what's been used in the past. It would
24 involve interviews with senior management staff; it
25 involved some surveys of senior management staff.

1 And also, this year we added focus groups
2 where we were able to meet with a number of
3 individuals in their area to get their input, and
4 the focus group participants also were asked to
5 complete the surveys.

6 The surveys classified risk is to the
7 likelihood of occurrence; and then, if the event
8 occurred, the impact. We also factored in our
9 experience and knowledge that we had in our
10 division for the different issues that come through
11 our office during the year. And using all of the
12 information that we had, we then developed a risk
13 assessment matrix which helped us quantify the
14 risk. And if we could go to that, just I'll make a
15 few comments on the risk assessment matrix.

16 The matrix identified 19 high-risk areas, and
17 this is compared with 31 high-risk areas that we
18 identified in the prior year. And the reason for
19 the decrease had to do with I think just improved
20 controls as well as I think a little bit more
21 understanding this year of what risks were and how
22 we should get those classified.

23 So to come up with the high-risk areas, we
24 considered anything that had a score of 15 or
25 higher, based on the scoring, for whether the

1 impact and then the likelihood of occurrence; so
2 for something to be considered a high risk, it had
3 to have received at least a three and a five to get
4 those areas multiplied together to get the 15. So
5 a three to five, four and four, five and five would
6 have put an area in the high risk. And those are
7 the numbers that you see in the risk assessment
8 matrix.

9 You see -- and we also link the risk with the
10 areas that we have coverage for, are proposing
11 coverage for for this year. You see in the
12 governance area we had three high-risk areas,
13 and we had some coverage in the '15 and '16; and
14 then also we're looking out to how we might cover
15 the -- provide some coverage in the next couple of
16 years.

17 Now you will see from the risk matrix that
18 there are some areas that -- high-risk areas that
19 don't have coverage. This results from some
20 factors that include just the resources to audit
21 the areas. There are some areas that other
22 University departments are covering and monitoring,
23 so we are getting some coverage there as well as
24 just -- but, primarily, it's just the lack of
25 resources.

1 So we go through, we look at the risk matrix.
2 It's divided into the areas: We have strategic
3 risk, operational risk, compliance risk, and
4 finance risk. And we tried to get some type of
5 coverage in all of the various risk areas.

6 The numbers that you see in the column relate
7 to the -- that's how we developed the score. Now,
8 are there any questions anybody has on anything
9 that they see in the risk matrix?

10 TRUSTEE WHITE: So, again, just so everyone,
11 you know, is sort of -- we go through this process
12 every year; and so, again, there's a series of
13 questions that are out there that identify both
14 whether people think it's a high impact and a high
15 likelihood.

16 And so, again, we look at the -- basically the
17 factor of those two numbers to come up with an
18 overall rating; and then based upon that, our work
19 plan or the work that's assigned to the Division of
20 Audit and Compliance then follows that fairly
21 closely except in a few glaring cases. And you can
22 also see that ends up turning into what's in the
23 final pages of the document works out to be just
24 about 15,000 audit hours of work to be done, you
25 know, in this academic year.

1 But this is a process that we go through every
2 year. As Rick articulated, there were some focus
3 groups this year that might have been in addition
4 to how we go through it, but this -- you know, so
5 our work of what we do in the Division of Audit and
6 Compliance follow the feedback that people gave us
7 about what they were concerned about from a risk
8 standpoint, so those are the areas that -- and so,
9 quite honestly, you just do it over and over again
10 each year.

11 So as a result, then we -- this Committee
12 needs to approve both the risk, you know, the risk
13 assessment and then the work plan; and then that
14 will be the work that the Division does throughout
15 the year.

16 VICE PRESIDENT GIVENS: All right. And so
17 based on the risk matrix, we developed some risk
18 themes to help us develop audit topics; and I'll
19 just move through the risk themes very quickly.

20 In governance we noted that there were some
21 policies and procedures that were not followed, and
22 that inadequate process for adopting and reviewing
23 and changing the University policies. Some
24 challenges were noted in the funding, as VP Cotton
25 just described a few minutes ago.

1 We also noted that there were some issues in
2 student recruitment and retention. This related to
3 the admission of the access opportunity students
4 that continues to have an impact on the University.
5 We noted a theme related to financial aid, simply
6 because of some of the problems that have been had
7 in the past, and also that the IT system is not
8 being used to its full functionality.

9 A risk theme also related to the athletics and
10 NCAA compliance about the possibility for
11 violations, as well as the issues around the
12 operating deficit that we also talked about
13 earlier. A risk theme was developed around human
14 resources, primarily recruiting and retaining
15 faculty and staff; low faculty salaries; and an
16 inadequate evaluation process that is being looked
17 at now.

18 Also, information technology was a risk theme,
19 that the ERP system is not configured to provide
20 maximum functionality; a lot of use of manual
21 processes rather than automated processes; and then
22 just the cost of IT in keeping qualified staff, as
23 well as keeping the system updated is a resource
24 issue.

25 Physical security and public safety was also

1 noted as a risk, and this is just an inherent
2 high-risk area, just because of the impact. And in
3 the write-up, I did note a number of areas that
4 have been approved over the last year that will
5 reduce the impact that included the security
6 cameras. The officers walk the campus, we see them
7 out, we know that they're -- at least may have a
8 physical presence.

9 Some training was provided in the areas and
10 emergency notification system that's in place. But
11 so a lot of improvements have been made, but just
12 because of the nature of that, we still consider
13 that a high risk.

14 A risk theme was also developed for media
15 relations and crisis communication. It had to do
16 with communicating results to -- for crises, as
17 well as the impact to the University if negative
18 information is presented. And also, we had a risk
19 theme for the procurement and accounts payable and
20 also for construction management, as well as budget
21 and cash management.

22 And then, lastly, this year was a new area
23 that related to high risk for the regulatory and
24 compliance, and that's why we are trying to move
25 towards a more formal compliance function.

1 So using the risk themes, then we developed
2 some audit topics. And you can see in your
3 materials that's on Page 13, and just take a quick
4 look at those. This is our proposed work plan for
5 the year.

6 TRUSTEE WHITE: Are there questions for
7 Vice President Givens?

8 (NO RESPONSE).

9 TRUSTEE WHITE: Hearing none, I would
10 entertain a motion to approve the risk assessment
11 and work plan for the 2015/2016 academic year.
12 Alston or Woody, one of you needs to make the
13 motion, and the other one needs --

14 TRUSTEE WOODY: I move the motion.

15 TRUSTEE ALSTON: Yes, Alston makes the second.

16 TRUSTEE WHITE: Thank you.

17 It's been moved and properly seconded that we
18 approve the risk assessment and work plan for
19 2015/16. Any other discussion?

20 (NO RESPONSE).

21 TRUSTEE WHITE: All in favor.

22 (AFFIRMATIVE INDICATIONS).

23 TRUSTEE WHITE: The motion is approved.

24 The only other action item I believe had to do
25 with the minutes from the June 1st meeting. Those

1 were distributed.

2 Is there a motion to approve?

3 TRUSTEE WOODY: So moved.

4 TRUSTEE ALSTON: Second.

5 TRUSTEE WHITE: It's been moved and properly
6 seconded. Any discussion?

7 (NO RESPONSE) .

8 TRUSTEE WHITE: All in favor.

9 (AFFIRMATIVE INDICATIONS) .

10 TRUSTEE WHITE: Thank you very much.

11 Vice President Givens, is there any other
12 business to come before the Audit Committee?

13 VICE PRESIDENT GIVENS: I have nothing else.

14 TRUSTEE WHITE: Thank you very much. We are
15 adjourned.

16 (WHEREUPON, THE AUDIT AND COMPLIANCE COMMITTEE
17 WAS ADJOURNED) .
