Automatically Create a Student’s Optimal Path to Graduation

1 EduNav calculates your optimal path to graduation
2 Easily customize your plan based on your preferences
3 Adjust your class schedule and register
Real-time Feedback Informs Better Decisions

EduNav works like Google Maps

1. EduNav calculates your optimal path to graduation
2. Easily customize your plan based on your preferences
3. Adjust your class schedule and register

Your plan will take longer

This will lengthen your overall plan. You may finish in 5 semesters instead of 4 semesters. Your overall cost will increase by $13,826.

Are you sure you want to proceed?

No     Yes
Real-time navigation to graduation

1. EduNav calculates your optimal path to graduation
2. Easily customize your plan based on your preferences
3. Adjust your class schedule and register

Registration completed
You have successfully registered to:
- EWRT 211: PREPARATORY WRITING (section: 00875)
- BUS 96: PRINC OF MANAGEMENT (section: 20403)
- MATH F1A: COLLEGE MATH PREP ALG (section: 32644)
Questions Insights can answer

- How many students have each class in their plan each term?
- Which courses have more demand than we can currently meet?
- How many students are off track? How far off track are they?
- Which sections have students already registered for, and which sections are still in plans but not yet registered?
- What would be the impact on completion of running half/twice as many sections of a course?
- What if we canceled half the classes that meet a given requirement?
- If we must cut classes, which ones to we absolutely need to keep to make sure seniors graduate on time?
