Military training, experience or coursework is subject to FAMU’s regular transfer practices including limitations on amount and level of transfer credit.

1. FAMU will utilize the ACE Guide to the Evaluation of Educational Experiences in the Armed Services to determine equivalency and alignment of military coursework with appropriate university courses.
2. If the military training or coursework equivalency fulfills a general education or degree program requirement, FAMU will apply the credit accordingly. For courses

- deemed college equivalency that FAMU does not offer or does not meet a general education or program course requirement, the student will receive elective course credit.
3. Credit that was previously evaluated and awarded by another SUS Institution or other Florida degree granting college or institution and that is appropriate to the transfer student's major will be accepted subject to institution transfer limitations.
 4. Credit awarded for military education and training will be noted on the transcript and documentation of the credit equivalency evaluation will be maintained.
 5. Credit awarded for military education and training shall not be counted in the excess hours fee per Board of Governors Regulation 7.003 Fees, Fines and Penalties due to the credit being based on work accomplished while serving on active duty.
- (b) Priority course registration will be provided for each veteran of the United States Armed Forces who is receiving GI Bill educational benefits and for the spouse or dependent children of a veteran to whom the GI Bill education benefits have been transferred.
- (c) Any student enrolled in a college credit course at FAMU will not incur academic or financial penalties by virtue of performing military service on behalf of our country. Students in this situation are encouraged to withdraw and will be provided any eligible refund without academic penalty, unless the student and faculty member agree that completion is imminent and possible. If the course is no longer offered when the student seeks to resume study, an equivalent course may be selected. If the student chooses to withdraw, the student's record shall reflect that the withdrawal is due to active military service. This section applies to:

1. Students who are currently on active duty with any unit of the United States Armed Forces who receive orders that require reassignment to a different duty station or absence from class for an extended period of time during the semester in which they are enrolled;
 2. Students who are members of a National Guard, Air National Guard, or other military reserve unit who receive orders calling them to active duty for operational or training purposes during the semester in which they are enrolled, excluding any regularly scheduled weekend and annual training duty;

- (9) College Credit for Nontraditional Courses Prior to Initial Enrollment.
- (a) Undergraduate students who are admitted to the University and who have completed nontraditional courses, including online and short college level courses, prior to initial enrollment in undergraduate education may request that the University evaluate that work to determine if credit might be awarded. Sufficient time must be allowed for the University to evaluate the course material for transferability.
 - (b) Award of credit for that work must meet the following conditions:
 1. The request is made prior to the initial term of enrollment and as soon as practicable.
 2. University faculty members determine the nontraditional course content and learning outcomes to be comparable to a course offered at the institution;

3. Nontraditional courses meet the quality and accreditation standards intended for a transfer course as determined by the College of Undergraduate Studies in consultation with other units, as appropriate;
 4. If the course is intended to meet a specific requirement for the student's degree program, the department offering the program determines that the nontraditional course is relevant to the student's intended program of study; and
 5. If the coursework was delivered by a foreign institution, the coursework and accreditation status of the institution must be evaluated by an appropriate service provider acceptable to the University.
- (c) Students wishing to have such nontraditional coursework evaluated for the purpose of receiving credit should inform the FAMU Office of Undergraduate Admissions as soon as practicable. If credit for the nontraditional coursework was awarded by another accredited institution of higher education meeting university transfer eligibility requirements, the student must submit an official transcript reflecting the award of credit and the transferability of that work will be determined with the same processes and criteria for other transferred courses.
- (d) If the nontraditional coursework did not result in credit awarded by a previous institution, the student may request a review for the awarding of credit by providing the following information directly to the academic department that is qualified to evaluate the subject matter:
1. A syllabus for the course;
 2. Credentials of the faculty member(s) teaching the course;
 3. Course objectives and learning outcomes for the course;

4. Confirmation that the course was satisfactorily completed; and
 5. Other information requested by the subject area faculty member(s) in order to determine demonstrated mastery of course learning outcomes. This may include a proctored testing requirement. To ensure there is sufficient time for review, all required documentation must be submitted no later than three months prior to the start of the initial term of enrollment. Assuming all requested information is provided, normally a decision regarding the awarding of credit shall be made within the first term of enrollment.
- (e) To be eligible for credit, short courses for credit shall have the same number of contact hours as do regularly scheduled courses. Other nontraditional courses must have an appropriate substitute(s) for the associated contact hours. The review of nontraditional course(s) must document equivalency with traditional course(s) when such traditional courses exist.
- (f) Courses may be evaluated on the basis of the recommendations of the American Council of Education (ACE) when official credentials have been properly presented. While credit may be granted when courses are equivalent to those offered by the University, recommendations by ACE are not binding upon the University. Even though records may have been evaluated by another accredited institution, it is important to have official credentials sent to FAMU for evaluation.
- (g) Credit for coursework taken prior to the initial term of enrollment will be noted on the student's transcript.

(h) An undergraduate student wishing to appeal the University's redirect of credit for nontraditional courses may submit an appeal, in writing, to the College of Undergraduate Studies within thirty (30) days of the date that the redirect is sent to the student.
