FAMU

PROGRAM OVERVIEW

The College of Pharmacy and Pharmaceutical Sciences, Institute of Public Health (CoPPS, IPH) is one of the largest colleges of pharmacy in the country and the nation's top producer of African American doctorates in the Pharmaceutical Sciences. The faculty prepares students for leading roles in the practice of pharmacy, research and public health. The College has developed patents that address the treatment for:

- ▶ AIDS
- ▶ CANCER
- ▶ MANY OTHER DISEASES
- ▶ DIABETES
- ▶ HYPERTENSION

ABOUT THE PROGRAM

Our pre-pharmacy program is the first step toward launching your pharmacy career, providing the foundational coursework to support the entrance requirements of the Doctor of Pharmacy program.

The pre-pharmacy program at FAMU is a two-year undergraduate education that includes courses in:

- ▶ LIFE SCIENCES
- ▶ MATHEMATICS
- ▶ SOCIAL SCIENCES

This plan of study is specifically designed for students preparing to apply for admission to the Doctor of Pharmacy (PharmD) program. Please note that admission into and completion of the pre-pharmacy program does not guarantee admission into the College's four-year PharmD program.

FLORIDA A&M UNIVERSITY PRE-PHARMACY

LIVING AND LEARNING COMMUNITY

The Pharmacy LLC is an opportunity for pre-pharmacy students to begin building a network early. Not only will learners live with students of the same discipline and receive support academically, but they will also be exposed to a variety of opportunities to connect with current professional learners (Peer Mentors), administrators, faculty, and staff within the College and across the University.

HOW TO APPLY

Applications are submitted on-line at www.famu.edu/admissions and through the Common Application (Common App). Admissions decisions are made throughout the year based on the desired term of entry. (Fall or Summer)

SEMESTER	APPLICATION AVAILABILITY	APPLICATION DEADLINE
Summer*	June 15th	March 1st
Fall*	June 15th	May 1st

*Applications submitted after the deadline may be considered for a future term

NEW RESEARCH WING

The 54,000 square-foot state-of-the-art facility provides research in the areas of health disparities with a focus on prostate cancer, breast cancer, and neurodegenerative disease and other fields of study.
