3.0 ITN PROCESS

3.1 OVERVIEW OF ITN PROCESS

The ITN is a method of competitively selecting a commodity or contractual services. The ITN process will involve three (3) phases: solicitation, evaluation, and negotiation.

3.2 SOLICITATION PHASE

3.2.1 Pre-Reply Conference and Site Visit

A pre-reply conference will be held at the date, time, and location in the Timeline in Section 1.5. Information provided by FAMU and answers to any questions presented by attendees will be non-binding and will not be considered an official position of FAMU. The only recognized changes to the ITN are those changes made through written Addenda issued by FAMU. Attendance at this pre-reply conference is not mandatory.

A site visit will be held immediately following the pre-reply conference (see Section 1.5 Timeline). Attendance at this site of visit is not mandatory.

3.2.2 Question and Answer Period

Respondents to this ITN or persons acting on their behalf may not contact, between the release of the ITN and the end of the seventy-two (72) hour period following FAMU's posting of the notice

of intended award, excluding Saturdays, Sundays, and State holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the Procurement Officer or as provided in the ITN documents. Violating this provision may be grounds for FAMU to deem a Reply non-responsive.

Any questions arising from this ITN must be forwarded, in writing, to the Procurement Officer identified below. Questions must be received by the specified time and date in Section 1.5 of the Timeline. FAMU's written response to timely written inquiries will be posted on <https://famu.bonfirehub.com/portal/?tab=openOpportunities> under this ITN number. It is the responsibility of all potential Respondents to monitor this site for any changing information prior to submitting their Reply, as well as throughout the procurement process.

WRITTEN QUESTIONS should be submitted to:

Stephany Fall, Chief Procurement Officer, Email: purchasing@famu.edu

ALL EMAILS TO THE PROCUREMENT OFFICER MUST CONTAIN THE ITN NUMBER (0001-2026) IN THE SUBJECT LINE.

3.2.3 Submission of Replies

Once FAMU posts the answers to the questions as indicated in Section 3.2.2, prospective Respondents may submit a Reply as indicated in Section 4, Reply Instructions; however, Respondents are encouraged to submit their Reply no earlier than five (5) days prior to the submission deadline. Respondents must submit their Replies by the deadline listed in Section 1.5 Timeline.

3.2.4 Public Opening of Replies

FAMU will open the Replies in a public meeting at the date, time, and location noted in Section 1.5 Timeline.

Agenda for Public Opening of Replies

Starting Time: see Timeline in Section 1.5

- Opening remarks of approximately two (2) minutes by FAMU's Procurement Office personnel.
- At the conclusion of the opening remarks, the Replies timely received will be opened, with the respondent's name read aloud. No other information will be read aloud at the meeting.
- Adjourn meetings.

3.3 EVALUATION PHASE

3.3.1 Administrative Responsiveness Review

Replies will not be considered if received by FAMU after the Reply due date and time specified in Section 1.5 Timeline (as may be modified by subsequent Addenda). Only Replies received by FAMU on or before the Reply due date and time will be considered. All Replies must be typed or printed in ink. Replies found to be non-responsive shall not be considered. Replies may be rejected if found to be irregular or not in accordance with the requirements and instructions of this ITN. A Reply may be found to be irregular and non-responsive for reasons that include, but are not limited to, a Respondent’s failure to utilize or fully complete required Forms as part of the Reply, the Reply contains required Forms that are altered by a Respondent, the Reply submitted is a conditional Reply, the Reply is incomplete, indefinite, or ambiguous, or the Reply lacks proper and/or dated signatures. The Procurement Officer will make an initial administrative responsiveness determination prior to distribution of the Replies to the Evaluation Team members; however, the University reserves the right to make a responsiveness determination at any time.

3.3.2 Other Grounds for Non-Responsive Determination

Other conditions which may cause rejection of a Reply include, but are not limited to, evidence of collusion among Respondents, obvious lack of experience or expertise to perform the required work, failure to perform or meet financial obligations on previous contracts, or in the event an individual, firm, partnership, or corporation is on the General Services Administration Excluded Parties List. A Respondent whose Reply, past performance, or experience do not reflect the capability, integrity, or reliability to fully and in good faith perform the requirements of the Contract may be deemed non-responsive. FAMU reserves the right to determine which Replies meet the requirements of this ITN, and which Respondents are Responsive and Responsible.

3.3.3 Evaluation by the Evaluation Team

FAMU will establish an Evaluation Team to evaluate and score all Replies that meet the initial administrative responsiveness requirements. Replies will be evaluated by the Evaluation Team in accordance with the evaluation criteria outlined below and as specified in this ITN. Each Evaluation Team member will independently evaluate Part I and Part II of each Respondent’s Reply according to the evaluation criteria set forth below and as set forth in this ITN. The maximum number of points available for each criterion is described below:

Part I -Technical Reply	Description	Available Points
1	Company History and Experience Technology	15
2	Service	20

3	Technology	15
4	Sustainability	5
5	Innovations/Contributions/Added Value	15
Part II	Description	Available Points
	Financial Proposal	30
	TOTAL AVAILABLE POINTS	100

The Procurement Officer will add the scores from each Evaluation Team member for Part I and Part II of a Respondent's Reply and divide the total by the number of Evaluation Team members to determine the Respondent's overall Reply Score ("Reply Score"). The maximum Reply Score achieved by a Respondent to this ITN is one hundred (100) points.

A Respondent's Reply Score will be used to establish the competitive range of Replies reasonably susceptible to award (the "Competitive Range"). FAMU, at its discretion, may select one or more Respondents within the Competitive Range to invite the negotiation phase (described in Section 3.4).

3.4 NEGOTIATION PHASE

After the evaluation and scoring of Replies as set forth in Section 3.3.3, and FAMU has established a Competitive Range of Replies reasonably susceptible of award, FAMU will select one or more Respondents within the Competitive Range to commence negotiations.

FAMU will establish a Negotiation Team to conduct the negotiations on behalf of the University. The Negotiation Team will make a recommendation for an award to the Respondent that provides the best value to the University, based on the selection criteria outlined in the ITN. The Negotiation Team will not be bound by any Evaluation Team member's evaluation or scoring, but material from the evaluation phase may be used by the Negotiation Team as a resource.

During the negotiation phase, pricing submitted with a Reply may be reduced but should not be raised unless the increase is directly related to changes in offered services in the BAFO and as negotiated in accordance with this ITN.

The format and content of any pricing submissions, including, but not limited to, BAFOs, may be amended during negotiations at the discretion of the Negotiation Team.

The Negotiation Team reserves the right to negotiate different terms, additional terms, and related price adjustments if it determines that such changes would provide the best value to the University. Additional operational requirements may be defined and clarified.

The Negotiation Team may require additional technical detail, diagrams, demonstrations, and documentation. The Negotiation Team may request proposed alternative terms or deliverables during negotiations, but it is under no obligation to accept them.

The Negotiation Team reserves the right to negotiate concurrently or sequentially with competing Respondent(s). Negotiations will not be open to the public but will be recorded. Recordings of negotiation meetings and Negotiation Team strategy meetings will be subject to the provisions of Section 286.0113, F.S.

Negotiation meetings will be conducted in Tallahassee, Florida, at FAMU's campus, 2380 Althea Gibson Way, Suite 214, Tallahassee, FL 32307, if conducted in person, or using technology-based solutions if conducted remotely. The Negotiation Team reserves the right to schedule in-person negotiations at an alternative location within the State. The Procurement Officer may distribute an agenda in advance of any negotiation meeting.

Negotiations will continue as determined by the Negotiation Team until acceptable terms and conditions are agreed upon through a BAFO, if applicable, or the Negotiation Team determines, at its sole discretion, that an acceptable agreement cannot be reached. The Negotiation Team reserves the right to conclude negotiations at any time with any or all Respondents and proceed to Contract award.

Representatives for each Respondent should plan to be available, at least by telephone, without interruptions, for the entirety of the Respondent's scheduled negotiation meeting(s). FAMU reserves the right to limit the number of representatives permitted to attend the negotiation meetings.

During the negotiation phase, the Negotiation Team may request clarification and revisions to Replies (including BAFO(s)) and identify information to be submitted to the Negotiation Team until it is satisfied that it has achieved the best value for the University. Failure to provide information requested by the Negotiation Team during the negotiation phase may result in termination of negotiations with the Respondent.

It is anticipated that FAMU may modify the language in the Request for BAFO(s) to express mandatory contractual requirements, which was previously permissive of language within the procurement documents. For example, the word 'should' may be replaced by the word 'must' in the final Scope of Work attached to the Request for BAFO(s).

3.4.1 Other FAMU Rights During Negotiation

FAMU has sole discretion in deciding whether and when to take any of the following actions and to decide the scope and manner of such actions. FAMU reserves the right at any time during the negotiation process to:

- f) Schedule additional negotiation meetings with any or all Responsive Respondents.
- g) Require any or all Responsive Respondents to provide additional, revised, or final written Replies addressing specific topics, including, but not limited to, modifications to the ITN specifications, terms or conditions, or business references.
- h) Require any or all Responsive Respondents to provide revised Replies and written BAFO(s).
- i) Require any or all Responsive Respondents to address services, prices, or conditions offered by any other Respondent.
- j) Pursue a Contract with a Respondent for the services encompassed by this ITN, including any Addenda thereto and any request for additional, revised, or final written Replies or request for BAFOs.
- k) Finalize Contract terms and conditions with any Respondent at any time.
- l) End negotiations with any or all Respondents at any time, regardless of the status or schedule of negotiations, and continue negotiations with other Respondents, or not continue negotiations with any Respondents.
- m) Conclude negotiations at any time and proceed to the Contract award.
- n) Reopen the negotiations with any Responsive Respondent.
- o) Take any additional administrative steps deemed necessary in determining the final award, including conducting demonstrations, additional fact-finding, evaluation, or negotiation where necessary and consistent with the terms of this solicitation.
- p) Request the assistance of and use of subject matter experts.
- q) Review and reply to relevant information contained in the Replies.
- r) Request pricing options are different from the initial pricing provided by the Respondent.
- s) Request business references and materials related to a reference check. If requested, the following guidelines will apply:
 - References should be relevant to the services in the solicitation.
 - If a reference provided by the Respondent relates to a Respondent's parent or affiliated entity or a subcontractor, the Respondent shall indicate such at the time the references are provided to FAMU.
 - References will not be accepted from:

Current employees of FAMU;
Former employees of FAMU within the past three (3) years;
Persons currently or formerly employed by the Respondent, its parent, an affiliated entity, or subcontractor;
Board members of the Respondent;
Relatives of Respondent's employees or board members;
Members of the Respondent's organization who have written, completed, and submitted the form on behalf of the reference; and
Any person involved in the drafting of this ITN or the procurement process on behalf of FAMU.

- t) Contact Respondent's customers or other entities with information relevant to the Respondent's responsibility, experience, and/or ability.

3.5 NEGOTIATION AND STRATEGY MEETINGS

In accordance with Section 286.0113, F.S., negotiations between FAMU and a Respondent are exempt from Chapter 286, F.S., and s. 24(b), Art. I of the State Constitution. Also, any portion of a Negotiation Team meeting at which negotiation strategies are discussed is exempt from Section 286.011, F.S.

FAMU will record all strategy meetings of the Negotiation Team and all negotiation meetings between FAMU and a Respondent, as required by law, and such recordings will eventually become subject to disclosure pursuant to Chapter 286, F.S. During negotiations, Respondents must inform FAMU prior to discussing any information it believes is confidential information as part of a negotiation meeting so that FAMU can make appropriate arrangements for the segregation of the recording. If the Respondent fails to inform FAMU that any portion of the negotiation meetings should be considered confidential information, prior to the discussion of confidential information, FAMU is authorized to produce the entire audio recording in response to a public records request or other demand for disclosure without further inquiry and without liability to the Respondent.

3.6 SELECTION CRITERIA

Each Respondent will be assessed against the selection criteria to decide which Respondent presents the best value to the University. The selection criteria will include, but are not limited to:

1. The Respondent's articulation, innovation, and demonstrated ability to meet the FAMU's goal and objectives.
2. The experience and skills of the Respondent's proposed staff relative to its proposed solution; and

3. The reasonableness of the Respondent's price and overall best value to the University.

3.7 FAMU'S NEGOTIATION TEAM RECOMMENDATION

The Negotiation Team will make a recommendation for the Contract award to the Respondent that provides the best value to the University, based on the selection criteria outlined in Section 3.6. The recommendation will be made by the consensus vote of the Negotiation Team. The recommendation will be submitted to the Chief Procurement Officer, who will forward it to FAMU's President or designee for review. FAMU's President or designee will make the final decision to approve or reject the recommendation of the Negotiation Team.

3.8 EVALUATION TEAM AND NEGOTIATION TEAM ASSISTANCE

Due to the complexity of this procurement, the Evaluation Team, the Negotiation Team, Chief Procurement Officers, and individual members of both are authorized to confer with consultants, subject matter experts, and others during the procurement process to gather information.

3.9 ASSESSMENT OF RESPONDENT'S QUALIFICATIONS

After the Reply due date and before Contract execution, FAMU reserves the right to verify data and representations submitted by the Respondent that may be used to determine whether the Respondent has adequate experience to provide overall management of the Contract. The review may also serve to verify whether the Respondent has financial capability adequate to meet the Contract requirements.

Should FAMU determine that a Reply, or any document submitted to the Negotiation Team, has material misrepresentations or that the size or nature of the Respondent's products or the number of experienced staff (including technical staff) are not adequate to ensure satisfactory Contract performance, FAMU has the right to reject the Reply or cease negotiations with that Respondent.

4.0 REPLY INSTRUCTIONS

4.1 GENERAL INSTRUCTIONS

This section provides instructions on the required format for the Reply. The instructions for this solicitation have been designed to help ensure that all Replies are reviewed and evaluated in a consistent manner, as well as to minimize costs and response time. A Reply that contains any conditions or exceptions to any aspect of this ITN, or in variance with these instructions, may be deemed non-responsive and not reviewed or evaluated. The only recognized changes to this ITN prior to the opening of Replies will be written on Addenda issued by FAMU.

FAMU has established specific requirements for responses submitted to competitive solicitations. The use of "shall," "must," or "will" (except to indicate futurity) in this ITN indicates a requirement or condition from which a material deviation may not be waived by FAMU. A deviation is material if, in FAMU's sole discretion, the deficient Reply is not in substantial accord with the ITN's requirements, provides a significant advantage to one

Respondent over another, or has a potentially significant effect on the quality of the Reply or on the cost to FAMU. Material deviations cannot be waived. The words “should” or “may” in this ITN indicate desirable attributes or conditions but are permissive in nature. Deviation from, or omission of, such desirable features will not, in and of itself, cause rejection of a Reply.

The Respondent shall, within its Technical Reply, Part I, identify any items for which the Respondent intends to remain vested or owned by the Respondent at the expiration or termination of the Contract.

4.2 CONTENTS OF A REPLY

A Reply must be organized in three (3) separate parts: The Technical Reply (Part I), the Financial Proposal (Part II), and Forms (Part III). The mandatory minimum requirements of this ITN are a Reply which must contain all three Parts and the required documents as follows:

- One (1) original version of Part I, Part II, and Part III of the Reply in .pdf format.
- If applicable, one (1) electronic (.pdf) copy of the Respondent’s Redacted Copy and Redacted Copy Index (as described in Section 4.5).

Replies must be received by FAMU on or before the Reply due date and time in Section 1.5 Timeline (as may be modified by subsequent Addenda). Replies received after the Reply due date and time will not be considered.

4.4 COPYRIGHTED MATERIAL

All materials provided as part of a Reply shall be a matter of public record regardless of copyright status. By submitting a Reply in response to this ITN, the Respondent authorizes FAMU to publish, copy, and reproduce, for FAMU’s internal use and for purposes of fulfilling its obligations under Chapter 119, Florida Statutes, any and all materials provided as part of a Reply for which the Respondent holds or purports to hold a copyright.

4.5 CONFIDENTIAL INFORMATION

If a Respondent considers any portion of its Reply to contain confidential material exempt from public inspection or disclosure under Chapter 119, Florida Statutes, or other applicable state or federal law (collectively, the “Public Records Law”), then the Respondent must, simultaneously with the un-redacted Reply, provide the University with a separate Redacted Reply (“Redacted Copy”).

If submitting a Redacted Copy, a Respondent must clearly include the ITN number, the name of the Respondent, and “Redacted Copy” in the title of the Redacted Copy. In addition, a Respondent must submit an index (the “Redacted Copy Index”) listing the confidential portions of its Reply, along with a description identifying the basis under which the Respondent claims such exemption(s) from the Public Records Law (including the specific statutory citation(s) for each exemption claimed). Any claim of confidentiality on materials a Respondent asserts to be exempt from public inspection or disclosure placed elsewhere in a Reply and not redacted or included in the Redacted Copy Index will be considered waived by the Respondent upon submission of its Reply.

Only those portions of the Reply that the Respondent claims are confidential or exempt from Public Records Law should be redacted in the Redacted Copy. A Reply should not be redacted in its entirety. A page or paragraph should not be redacted in its entirety unless the entire page or paragraph consists of wholly information that is confidential or exempt from public inspection or disclosure under the Public Records Law. A Redacted Copy will be used to fulfill public records and other disclosure requests or requirements.

If FAMU receives a public records request for materials that a Respondent has identified as confidential, FAMU will provide the Respondent's Redacted Copy to the requester. If a requester asserts a right to the portions of material identified by the Respondent as confidential, FAMU will notify the Respondent that such an assertion has been made. It is the Respondent's responsibility to take appropriate legal action to protect the records in question from disclosure under the Public Records Law or other legal authority. If FAMU becomes subject to a demand for discovery or disclosure of materials that Respondent claims are confidential in a legal proceeding, FAMU will notify the Respondent of the demand, and it will be the Respondent's responsibility to take appropriate legal action to defend its claims of confidentiality. If the Respondent fails to take appropriate and timely action to defend its claims of confidentiality, FAMU may release the materials that are responsive to the demand, without redaction, to the requester.

FAMU is not obligated to agree with a Respondent's claim(s) of confidentiality, and by submitting a Reply, a Respondent agrees to indemnify, protect, defend, and hold harmless FAMU from any and all claims, liabilities, damages, losses and costs, including, but not limited to, reasonable attorneys' fees, arising from or relating to the Respondent's determination that the redacted portions of its Reply are confidential or otherwise protected from public inspection or disclosure. If a Respondent fails to submit a Redacted Copy of its Reply and the Redacted Copy Index as required herein, then FAMU is authorized to release the entire unredacted Reply submitted to FAMU in response to a public records request or other demand for disclosure without further inquiry of the Respondent.

4.6 COSTS INCURRED IN RESPONDING

This ITN does not commit FAMU to award the Contract or to proceed with the procurement described herein. FAMU assumes no obligations, responsibilities, or liabilities, fiscal or otherwise, to reimburse any costs incurred or alleged to have been incurred by a Respondent responding to this ITN or by any other party considering the submission of a Reply to this ITN.

4.7 MODIFICATION AND WITHDRAWAL OF REPLY

A Respondent may modify or withdraw its Reply at any time prior to the Reply due date and time specified in Section 1.5 Timeline by submitting a written request to the Procurement Officer.

4.8 MULTIPLE REPLIES

Replies may be rejected if more than one Reply is received from a Respondent. Subcontractors may appear in more than one Reply.

4.9 REPRESENTATIONS

By submitting a Reply to this ITN, a Respondent warrants, represents, and covenants that:

- aa) The Respondent is duly organized, validly existing, and in good standing under the laws of the jurisdiction of its organization and is duly qualified to conduct business in the State of Florida.
- bb) The Respondent has full power and authority to enter into the Contract and to comply with the provisions of the Contract.

The foregoing does not apply to the necessary licenses, permits, and other approvals to be applied for by the Respondent in connection with the Contract.
- dd) The Respondent currently is not the subject of bankruptcy, insolvency, or reorganization proceedings and is not in material default of, or otherwise subject to, any agreement or any law, administrative regulation, judgment, decree, note, resolution, charter or ordinance which would currently restrain or enjoin it from entering into, or complying with, the Contract, in any material respect.
- ee) There is no material action, suit, proceeding, inquiry, or investigation, at law or in equity, before any court or public body, pending or to the best of the Respondent's knowledge threatened, which seeks to restrain or enjoin the Respondent from entering or complying with the Contract.
- ff) That the execution, delivery, and performance of the Contract shall not conflict with, be inconsistent with, or result in any breach or default of any of the terms, covenants, conditions, or provisions of any indenture, bank loan, credit agreement, or other agreement or contract of any kind or nature to which the Respondent is a party or by which the Respondent may be bound.

5.0 AWARD

The intended decision will be made to the responsive and responsible respondent, who is determined to provide the best value to the University, based on the selection criteria. FAMU's intended decision will be posted at <https://famu.bonfirehub.com/portal/?tab=openOpportunities>, on the date in Section 1.5 Timeline, or as modified by any Addenda, and will remain posted for a period of seventy-two (72) hours. At the time of filing the formal written protest, a bond (a cashier's check or money order may be accepted) payable to FAMU shall also be submitted consistent with FAMU Regulations 6.005 (13) (c).

Failure to file a protest within the time prescribed in Section 120.57(3), Florida Statutes, or failure to post the required bond or other security within the time allowed for filing a bond shall constitute a waiver of proceedings under Chapter 120, Florida Statutes.

“Vendor”- A respondent submitting a proposal in response to this Invitation to Negotiate (ITN) and, if selected, the individual, firm, corporation, or other legal entity that enters into a contract with the University to provide the services described herein, including its officers, employees, agents, and authorized subcontractors.

For the avoidance of doubt, the inclusion of definitions related to athletics, sponsorships, marketing rights, beverage exclusivity, or brand protection shall not be construed to grant any such rights under this Exhibit A unless expressly stated elsewhere in the Agreement.

2. Goal.

The primary goal of this Agreement is to establish a comprehensive, high-quality, and financially beneficial dining program that serves the entire University community, including students, faculty, staff, and visitors, while supporting the University’s strategic goals in sustainability, health, and campus life.

The dining program shall emphasize reliable service delivery, food safety compliance, fiscal accountability, and consistent operational standards across all locations.

3. Dining Availability Rights.

3.1 Subject to the permitted exceptions set forth in Section 5 below, the University agrees that all catering services for university-sponsored events and any food tastings or samplings provided at no cost that are advertised or promoted on campus shall be provided by the University’s dining vendor.

The Vendor shall have a first right of refusal for university-sponsored catering events. External caterers may be utilized only when the Vendor declines or is unable to meet documented service requirements, as approved by the University.

Except as expressly approved by the University, no competitive food vendors shall sell, distribute, sample, advertise, or promote food products on campus without prior written approval from the University.

3.2 The University recommends the purchase of food and catering services from Vendor; however, the University does not require its concessionaires to purchase products or services from Vendor. Vendor shall sell to the University and/or its concessionaires such dining and related products as the University or its concessionaires may elect to purchase under this Agreement.

The prices for all products sold under this Agreement shall remain firm for the first Agreement Year. Thereafter, prices may be increased only upon the Parties' mutual written agreement and shall not exceed the mutually agreed percentage over the immediately preceding Agreement Year's prices. Any annual price increase shall be subject to the University's prior review and written approval before implementation.

In the event the University enters into an agreement during the Term with a third-party concessionaire or food service operator that has a separate contractual relationship with Vendor, the Parties acknowledge and agree that there shall be no duplication of allowances, rebates, incentives, funding, or other financial benefits to the University and/or such third party with respect to products purchased or sold under this Agreement. Accordingly, Vendor shall not be obligated to pay any additional or duplicative consideration to the University or such third party pursuant to any pre-existing agreement for products purchased and/or sold under this Agreement.

3.3 The University may promote the Vendor's food offerings at campus and athletic events at its discretion, subject to university policies and operational needs.

5. Permitted Exceptions.

There are certain events held throughout the academic year during which the Vendor will permit University departments to provide giveaways to students, faculty, and staff. During these events, the Vendor will allow approved outside food trucks to participate, provided that all required insurance documentation and waivers are submitted and approved in a timely manner. During such events, approved outside food trucks or external food vendors may participate only with prior written approval from the University, submission and approval of all required insurance documentation and waivers, and provided the Vendor is afforded participation when operationally feasible and consistent with the event format. In such cases, the only requirement is that the Vendor must also be included as one of the food service providers, serving as the official representative of the University.

6.4 Commissions.

During the period when the Vendor operates a full-service dining program on Campus, the Vendor will pay the University a commission at the rates specified in the table below.

Cash/credit/debit sales	Commission	Initial Vend Price
Additional Flex Dollar sales	___%	\$____
Catering/conference sales	___%	\$____
Board sales	___%	\$____

The Food Provider may adjust prices on an annual basis as necessary to reflect changes in its costs, including the cost of goods, as mutually agreed upon in writing by the University. These commissions will be paid on or about the 20th of each month following the month in which they are earned, with an accounting of all sales and monies. The University reserves the right to

impose a late payment fee at a rate agreed upon between the Vendor and the University. Vendor shall maintain separate accounting records for its vending operation on the Campus. The vendor shall provide the University with a gross sales statement, along with the monthly commission payment. Such accounting will provide a detailed explanation of case sales by machine and item category, as well as by location. Abnormal sales deviations shall be noted by the Vendor as part of these statements. The statements shall also reflect aggregate commissions by Product type. All monthly sales statements and payments should be sent to the Finance Director of Business and Auxiliary Services, 601 Robert and Trudie Perkins Way, Tallahassee, Florida 32307.

In addition to the foregoing, Vendor shall provide detailed monthly financial reports including, at a minimum, gross sales, net sales, meal plan usage, labor hours (including overtime), discounts, voids, complimentary meals, and commission calculations by location.

The University retains full audit rights, including the right to access point-of-sale systems, underlying transactional data, and all supporting documentation upon reasonable notice, for the purpose of verifying compliance with this Agreement.

Upon the University's reasonable request, the Vendor shall meet with the University to review each monthly statement, explain any deviations, discuss problems, and mutually agree on courses of action to improve the results of the required services included in this Agreement. Monthly statement adjustments are required because review and/or audit shall be identified and reflected on the next monthly statement.

At the end of the Vendor's fiscal year, the Vendor will furnish the University with a financial statement, audited by a certified public accountant licensed and certified by the State of Florida. Such financial statements shall include an opinion as to the computation and payment of the University's monthly payment with the annual gross sales, and clearly express whether, according to this Contract, the Vendor is liable for additional payments to the University.

Upon expiration or termination of the Agreement, the University will continue to earn commissions on each vending machine serviced and stocked by Vendor until such machine has been removed from the Campus by Vendor. The monthly statements shall indicate each unit of equipment that was removed during the month to which the statement pertains. Monthly statements and payments shall be submitted by the Vendor until all vending equipment has been removed from the Campus.

6.5 Complimentary –

As Business and Auxiliary Services serves as the management and oversight of the food vendor's IT systems and equipment maintenance, the BAS department & CFO's Office will only be permitted to have meals in the dining hall in the same manner as the vendor's employees. BAS serves as the management and oversight entity for the contracted dining operation. This includes direct responsibility for vendor performance, contract compliance, operational oversight, IT systems integration, and equipment maintenance associated with dining services.

BAS staff function in the same operational capacity as on-site dining management; their presence in the dining facilities is work-related and operationally necessary rather than discretionary. Their access mirrors that of the vendor employees, who are providing meals as part of their operational role while performing services within the dining hall.

Historically, BAS staff, including personnel from the CFO's Office, have routinely taken breakfast and lunch at no cost while actively managing and overseeing dining operations. This long-standing practice aligns with BAS's role as the steward of the dining contract and reflects industry norms for auxiliary operations where oversight staff must be present during service hours to ensure continuity, quality, and compliance.

This arrangement is not a general employee benefit, but rather an operational accommodation directly tied to the responsibilities of managing the dining program, such as how vendor employees receive meals while on duty. Other university employees whose roles do not require continuous operational oversight of dining services are not within this scope.

Vendor shall maintain an internal method to document BAS/CFO's Office meals taken under this operational accommodation (e.g., roster or manager log) and provide such documentation to the University upon request for audit or internal control purposes.

6.6 Accounting.

Vendor shall provide the University with a monthly accounting of all sales and monies in a form of satisfactory to the University, which shall become the immediate property of the University.

Monthly accounting shall be submitted no later than fifteen (15) calendar days after the month-end, unless otherwise approved in writing by the University.

7. Emergency Operations and Contingency Planning.

7.1 Continuing Obligation to Provide Food Service. The vendor acknowledges that the University has a critical obligation to provide food service to students residing on campus, and that this obligation remains in effect during emergency situations. Notwithstanding any emergency conditions, Vendor shall remain responsible for providing food service to students and other members of the University community to the maximum extent feasible and safe. The Vendor shall not suspend food service operations without prior approval from the University, except in cases where continued operations would pose an imminent threat to the health or safety of the Vendor's employees. Any suspension of operations shall be limited in scope and duration to the minimum extent necessary, and Vendor shall resume full operations as soon as conditions safely permit.

Vendor shall document any suspension or material modification of food service operations during an emergency and provide such documentation to the University upon request.

7.2 Emergency Food Service Plan. Within sixty (60) days of the Effective Date, Vendor shall submit to the University for approval a comprehensive Emergency Food Service Plan (the "Emergency Plan"). The Emergency Plan shall address the Vendor's procedures for maintaining, modifying, or suspending food service operations during emergency situations, including but not limited to severe weather events, hurricanes, tropical storms, flooding, extended power outages, public health emergencies, active threat situations, and other campus emergencies. The Emergency Plan shall prioritize the continuous provision of meals to students with active meal plans and shall specify the number and type of meals to be provided at each defined emergency level. Vendor shall review and update the Emergency Plan annually, or more frequently as necessary, and shall submit any material revisions to the University for approval.

The Vendor shall provide a current copy of the approved Emergency Plan to the University's designated liaison and shall ensure that on-site management staff are trained on its implementation.

- (a) Identification of essential personnel and an emergency contact list with primary and secondary contacts available twenty-four (24) hours per day, seven (7) days per week;
- (b) Procedures for pre-emergency preparation, including food and supply stockpiling, equipment protection, and facility securing protocols;
- (c) Defined emergency levels (e.g., Level 1, Level 2, Level 3) with corresponding meal service standards, including the number of meals to be provided and service methods for each level;
- (d) Protocols for modified food service operations, including reduced menus, alternative service locations, and grab-and-go meal options to ensure students continue to receive meals;

The Emergency Plan shall be designed to align with the University's overall Emergency Management framework and shall be updated as necessary to reflect changes in campus operations or risk profiles.

7.4 Emergency Activation Plan. In addition to the Emergency Plan, Vendor shall develop and maintain an Emergency Activation Plan that outlines the immediate steps to be taken upon notification of an impending or occurring emergency. The Emergency Activation Plan shall include rapid assessment procedures, initial communication protocols, immediate staffing decisions, and criteria for determining the applicable emergency level. Upon declaration of a campus emergency or receipt of an emergency notification from the University, Vendor shall immediately implement the Emergency Activation Plan and communicate its initial response actions to the University's Emergency Operations Center or designated University representative within two (2) hours of activation.

Vendor shall test the Emergency Activation Plan periodically, either independently or in coordination with university emergency exercises, and shall address any identified gaps or deficiencies.

7.5 Coordination with University Emergency Management. Vendor shall designate an Emergency Coordinator who shall serve as the primary liaison with the University's Office of Emergency Management. The Emergency Coordinator shall participate in university emergency preparedness training, exercises, and drills as requested by the University. During declared campus emergencies, Vendor shall coordinate all food service operations with the University's Emergency Operations Center and shall comply with directives issued by the University's Emergency Management Director or designee.

The Vendor shall ensure continuity of the Emergency Coordinator role by designating an alternate Emergency Coordinator in the event the primary designee is unavailable.

7.6 Emergency Staffing. The Vendor shall maintain a A roster of personnel who have agreed to be available for emergency operations and can report to campus during emergency conditions when it is safe to do so. Vendor shall ensure that enough trained personnel are available to provide continuous food service to students throughout any emergency period. Failure to maintain adequate emergency staffing to fulfill the Vendor's obligation to feed students may constitute a material breach of this Agreement.

Vendor shall update the emergency staffing roster at least annually and upon any material staffing changes.

7.7 Emergency Supplies and Equipment. Vendor shall maintain, at all times during the Term, an adequate inventory of non-perishable food items, bottled water, disposable serving supplies, and portable cooking equipment sufficient to provide emergency meals for a minimum number of individuals and for a minimum duration, as mutually agreed upon by the Parties in writing. Vendors shall inspect emergency supplies quarterly and replace items as necessary to ensure freshness and functionality. These supplies shall be sufficient to meet the nutritional needs of all students with active meal plans during the emergency period.

Vendor shall provide the University, upon request, with a summary of emergency supply inventories and inspection schedules.

7.8 Meal Service During Emergencies. During any emergency condition, Vendor shall provide meals to students with active meal plans in accordance with the meal service standards established in the approved Emergency Plan for the applicable emergency level. The number and type of meals provided shall be contingent upon the level of emergency as determined by the University in coordination with the Vendor; however, the Vendor shall ensure that students receive adequate nutrition throughout the duration of the emergency. Meals provided during emergency conditions shall accommodate documented medical dietary needs to the extent of supplies to permit, and the Vendor shall make reasonable efforts to accommodate other dietary restrictions during emergency operations.

Vendor shall document emergency meal service levels and provide post-event reporting to the University upon request.

7.9 Florida A & M University shall provide:

- All necessary capital equipment to support meal plan, retail, and catering services under this contract. POS/CARD Readers are the exception.
- Facility and equipment repair and maintenance, improvements, alterations, or modifications not negotiated to be the Vendor's responsibility. This includes, but is not limited to, floors, walls, ceilings, electrical, and plumbing fixtures.

- The University will provide heat, light, power, water, and air conditioning necessary for the efficient operation of the food service program. In turn, the Vendor will contribute funding for their utility usage associated with dining operations for their areas.
- The initial/basic/minimal inventory of small equipment, service ware, i.e., China, glasses, trays, flatware, etc. The Vendor shall maintain the inventory as a direct operating cost.
- Telephone equipment, including local service and network connectivity for the Vendor.

7.10 The University Requires That Vendor:

- Present a system to ensure that proper time and temperatures are maintained during the storage, preparation, and service periods.
- Included in a clause in the contract, the vendor must complete a HACCP assessment (or provide a documented plan) prior to the start of service. This aligns with industry best practices and protects both the University and the vendor. Operate and manage the FAMU food service facilities and equipment in a safe, clean, and sanitary manner always in accordance with federal, state, and local laws, codes, and regulations.
- Attain and maintain a numerical score of “90%” or an “A” if an alpha system is in place, above all state health inspections. If the food vendor fails to attain or maintain a numerical score of 90% or an “A” rating (if an alpha grading system is in place) on any state or local health inspection, the following corrective actions should apply:
 1. **Immediate Corrective Action Plan (CAP)**
The vendor must submit a written corrective action plan within a specified timeframe (typically 5–10 business days), outlining the deficiencies identified, the corrective measures taken, and the timelines for resolution.
 2. **Follow-Up Inspection or Audit**
The University reserves the right to require a reinspection or conduct an independent health and safety audit at the vendor’s expense to verify compliance.
 3. **Financial Remedies**
Continued failure to meet the required score may result in contractual remedies such as liquidated damages, service credits, or withholding of a portion of management fees until compliance is achieved.
 4. **Increased Oversight**
The University may impose enhanced monitoring, including more frequent inspections, mandatory staff retraining, or the presence of on-site management.
 5. **Notice of Default**
Repeated failures or failures to correct deficiencies within the required timeframe may constitute a material breach of contract, triggering a formal notice of default.
 6. **Termination for Cause**
Persistent noncompliance or any violation that poses a serious health or safety risk may result in the immediate termination of the contract for cause, in accordance with the contract terms.

- Notify the University immediately, in writing, of any potential violations that under the terms of the contract, FAMU carries the responsibility to correct, because of inspection by state and local authorized health department officials, fire department, and other agencies relative to safety requirements.
- Correct violations resulting from the installation of vendor-owned equipment and/or resulting from the operations of the food service, including, but not limited to, the use and maintenance of all cafeteria equipment and facilities. Notify the University immediately of violations and provide proof that violations have been corrected.
- Notify the University's liaison prior to the start of any inspection by an external authority or agency. Notify the University immediately, in writing, of any notices of violations that are received in connection with an inspection. The vendor will include in its notice action plans to address the conditions that caused the violations.
- Develop, in conjunction with the University, a set of Key Performance Indicators (KPIs) that will be used to monitor performance and satisfaction based on the University's goals and objectives for its Dining Services Program.

8. Remedies for Loss of Rights.

8.1 In addition to any other legal or equitable remedy, the University will have the right to terminate this Agreement upon forty-five (45) days' written notice to Vendor at any time if:

Termination pursuant to this section 8.1 does not absolve Vendor of any liabilities or payment responsibilities due prior to or because of such termination.

The University's determination under Section 8.1.3 shall be exercised in accordance with applicable law and shall not be construed as a waiver of any other rights or remedies available to the University.

8.2 In addition to any other legal or equitable remedy, Vendor will have the right to terminate this Agreement upon forty-five (45) days' written notice to the University at any time if:

8.2.1 The University breaches any material term or condition of this Agreement, and if such breach continues uncured for the forty-five-day (45) period referenced in this Section 8.2; or

8.2.2 The University's right to convey any of the promotional and dining availability rights contained in this Agreement expires or is revoked.

8.4 If any material component of the Campus is closed for more than thirty (30) consecutive days, but less than one hundred twenty (120) consecutive days, Vendor may extend the Term for a corresponding period, whether or not such closure is due to a cause beyond the reasonable control of the University.

Any such extension shall be subject to written confirmation by the University.

8.5 University recognizes that Vendor has paid valuable consideration to ensure an associational relationship with the University, the University Marks, and the Campus with respect to dining, and that any dilution or diminution of such seriously impairs Vendor's valuable rights. Accordingly, the University will promptly oppose Ambush Marketing and take all reasonable steps to prevent and protect the associational rights granted to the Vendor by the University under this Agreement. If any such Ambush Marketing occurs during the Term, each party shall notify the other party as soon as practicable, but in no event later than forty-eight (48) hours, upon learning of such activity.

Nothing in this Section shall obligate the University to take actions beyond those permitted by law or University policy.

8.6 Vendor shall have the right to withhold and not pay any portion of the commissions or any other amounts which may become payable to University pursuant to this Agreement if: (i) the University has failed to perform its obligations hereunder; (ii) Vendor's rights hereunder have been lost, limited or restricted; or (iii) there exists a bona fide dispute between the Parties.

Any amounts withheld pursuant to this Section shall be limited to the portion reasonably in dispute and shall be remitted promptly upon resolution of such dispute.

9. Representations, Warranties and Covenants.

9.1 University represents, warrants, and covenants to Vendor as follows:

9.1.1 University has full power and authority to enter into this Agreement and to grant and convey to Vendor the rights set forth herein.

If there is an instance where Vendor is subcontracting any portion of its duties to a subcontractor who is not required by Florida Statute to cover its employees by Worker's Compensation, Vendor must obtain the University's prior written approval of such subcontractor.

Vendor shall supply a Commercial Blanket Bond, which covers loss occasioned by theft and the hazards customarily covered by such bonds, and a Fidelity Bond for faithful service. Such a policy is to cover the losses of identifiable employees. The University may request higher limits if exposure to loss increases.

The University shall be exempt from, and in no way liable for, any sums of money that may represent a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Vendor and/or subcontractor, if applicable.

The public liability policy shall be properly endorsed with the "Hold Harmless Agreement" to save the University and its Board of Trustees, the Florida Board of Governors, State officials and employees harmless and to indemnify the University for any claim or liability to benefits under the Worker's Compensation Law of Florida (Chapter 440, Florida Statutes) occasioned by an accidental injury to temporary help by University.

9.4.1 Risk of Loss.

Matters of inspection and acceptance are addressed in section 215.422, F.S. Until acceptance, risk of loss or damage will remain with the Contractor. The Contractor will be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer will: record any evidence of visible damage on all copies of the delivering carrier's bill of lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's bill of lading and damage inspection report.

9.4.2 Rejected Commodities.

When FAMU rejects a commodity, Contractor will remove the commodity from the premises within ten (10) calendar days after notification of rejection, and the risk of loss will remain with the Contractor. Commodities not removed by the Contractor within ten (10) calendar days will be deemed abandoned by the Contractor, and FAMU will have the right to dispose of such commodities. Contractor will reimburse FAMU for costs and expenses incurred in storing or effecting removal or disposition of rejected commodities.

9.5 Safety Standards.

Performance of the Contract for all commodities or contractual services must comply with requirements of the Occupational Safety and Health Act and other applicable State of Florida and federal requirements.

9.6 Time is of the Essence.

Time is of the essence regarding every obligation of the Contractor under the Contract. Each obligation is deemed material, and a breach of any such obligation (including a breach resulting from untimely performance) is a material breach.

9.7 Waiver.

The delay or failure by FAMU to exercise or enforce any rights under the Contract will not constitute waiver of such rights.

9.8 Modification and Severability.

The Contract may only be modified by written agreement between FAMU and the Contractor. Should a court determine any provision of the Contract is invalid, the remaining provisions will not be affected, and the rights and obligations of the Parties will be construed and enforced as if the Contract did not contain the provision held invalid.

10. LIABILITY AND INSURANCE.

10.1 Workers' Compensation Insurance.

The Contractor shall maintain workers' compensation insurance as required under the Florida Workers' Compensation Law or the workers' compensation law of another jurisdiction where applicable. The Contractor must require all subcontractors to similarly provide workers' compensation insurance for all of the latter's employees. In the event work is being performed by the Contractor under the Contract and any class of employees performing the work is not protected under Workers' Compensation statutes, the Contractor must provide, and cause each subcontractor to provide, adequate insurance satisfactory to FAMU, for the protection of employees not otherwise protected.

10.2 General Liability Insurance.

The Contractor must secure and maintain Commercial General Liability Insurance, including bodily injury, property damage, products, personal and advertising injury, and completed operations. This insurance must provide coverage for all claims that may arise from performance of the Contract or completed operations, whether by the Contractor or anyone directly or indirectly employed by the Contractor. Such insurance must include FAMU as an additional insured for the entire length of the resulting contract. The Contractor is responsible for determining the minimum limits of liability necessary to provide reasonable financial protections to the Contractor and FAMU Florida under the resulting contract.

10.3 Florida Authorized Insurers.

All insurance shall be with insurers authorized and eligible to transact the applicable line of insurance business in the State of Florida. The Contractor shall provide Certification(s) of Insurance evidencing that all appropriate coverage is in place and showing FAMU to be an additional insured.

10.4 Performance Bond.

Unless otherwise prohibited by law, the Department may require the Contractor to furnish, without additional cost to FAMU, a performance bond or irrevocable letter of credit or other form of security for the satisfactory performance of work hereunder. FAMU shall determine the type and amount of security.

10.5 Indemnification.

To the extent permitted by Florida law, the Contractor agrees to indemnify, defend, and hold FAMU, its officers, employees, and agents harmless from all fines, claims, assessments, suits, judgments, or damages, including consequential, special, indirect, and punitive damages, including court costs and attorney's fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret, or intellectual property right or out of any acts, actions, breaches, neglect, or omissions of the Contractor, its employees, agents, subcontractors, assignees, or delegates related to the Contract, as well as for any determination arising out of or related to the Contract that the Contractor or Contractor's employees, agents, subcontractors, assignees, or delegates are not independent contractors in relation to FAMU. The Contract does not constitute a waiver of sovereign immunity or consent by FAMU to suit by third parties. Without limiting this indemnification, FAMU may provide the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense.

10.6 Limitation of Liability.

Unless otherwise specifically enumerated in the Contract or in the purchase order, FAMU shall not be liable for special, indirect, punitive, or consequential damages, including lost data or records (unless the Contract or purchase order requires the Contractor to back-up data or records), even if FAMU has been advised that such damages are possible. FAMU shall not be liable for lost profits, lost revenue, or lost institutional operating savings. FAMU may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs, and the like asserted by or against them. FAMU may set off any liability or other obligation of the Contractor or its affiliates against any payments due the Contractor under any contract with FAMU.

11. PUBLIC RECORDS, TRADE SECRETS, DOCUMENT MANAGEMENT, AND INTELLECTUAL PROPERTY.

11.1 Public Records.

11.1.1 Termination of Contract for Refusal to Comply with Chapter 119, F.S.

FAMU may terminate the Contract for refusal by the Contractor to comply with this section by not allowing access to all public records, as defined in Chapter 119, F. S., made or received by the Contractor in conjunction with the Contract.

11.1.2 Statutory Notice.

Pursuant to section 119.0701(2)(a), F.S., for contracts for services with a contractor acting on behalf of a public agency, as defined in section 119.011(2), F.S., the following applies:

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS, AND MAILING ADDRESS PROVIDED IN THE RESULTING CONTRACTOR PURCHASE ORDER.

Pursuant to section 119.0701(2)(b), F.S., for contracts for services with a contractor acting on behalf of a public agency as defined in section 119.011(2), F.S., the Contractor shall:

- (a) Keep and maintain public records required by the public agency to perform the service.
- (b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.
- (c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if the Contractor does not transfer the records to the public agency.
- (d) Upon completion of the Contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the Contractor transfers all public records to the public agency upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency.

11.2 Protection of Trade Secrets or Otherwise Confidential Information.

11.2.1 Contractor Designation of Trade Secrets or Otherwise Confidential Information.

If the Contractor considers any portion of materials to be trade secret under section 688.002 or 812.081, F.S., or otherwise confidential under Florida or federal law, the Contractor must clearly designate that portion of the materials as trade secret or otherwise confidential when submitted to FAMU. The Contractor will be responsible for responding to and resolving all claims for access to Contract-related materials it has designated trade secret or otherwise confidential.

11.2.2 Public Records Requests.

If FAMU receives a public records request for materials designated by the Contractor as trade secret or otherwise confidential under Florida or federal law, the Contractor will be responsible for taking the appropriate legal action in response to the request. If the Contractor fails to take appropriate and timely action to protect the materials designated as trade secret or otherwise confidential, FAMU will provide the materials to the requester.

11.2.3 Indemnification Related to Confidentiality of Materials.

The Contractor will protect, defend, indemnify, and hold harmless FAMU for claims, costs, fines, and attorney's fees arising from or relating to its designation of materials as trade secret or otherwise confidential.

11.3 Document Management.

The Contractor must retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers, and documents that were made in relation to this Contract. The Contractor must retain all documents related to the Contract for five (5) years after expiration of the Contract or, if longer, the period required by the General Records Schedules maintained by the Florida Department of State available at the Department of State's Records Management website.

11.4 Intellectual Property.

11.4.1 Ownership.

Unless specifically addressed otherwise in the Contract, FAMU shall be the owner of all intellectual property rights to all property created or developed in connection with the Contract.

11.4.2 Patentable Inventions or Discoveries.

Any inventions or discoveries developed in the course, or as a result, of services in connection with the Contract that are patentable pursuant to 35 U.S.C. § 101 are the sole

property of FAMU. Contractor must inform FAMU of any inventions or discoveries developed or made through performance of the Contract. FAMU will be the sole owner of all patents resulting from any invention or discovery made through performance of the Contract.

11.4.3 Copyrightable Works.

Contractor must notify FAMU of any publications, artwork, or other copyrightable works developed in connection with the Contract. All copyrights created or developed through performance of the Contract are owned solely by FAMU.

12. DATA SECURITY.

The Contractor will maintain the security of FAMU data including, but not limited to, maintaining a secure area around any displayed visible data and ensuring data is stored and secured when not in use. The Contractor and subcontractors will not perform any of the services from outside of the United States, and the Contractor will not allow any State of Florida data to be sent by any medium, transmitted, or accessed outside the United States due to Contractor's action or inaction. In the event of a security breach involving FAMU data, the Contractor shall give notice to FAMU within one business day. "Security breach" for purposes of this section will refer to a confirmed event that compromises the confidentiality, integrity, or availability of data. Once a data breach has been contained, the Contractor must provide FAMU with a post-incident report documenting all containment, eradication, and recovery measures taken. FAMU reserves the right in its sole discretion to enlist a third party to audit Contractor's findings and produce an independent report, and the Contractor will fully cooperate with the third party. The Contractor will also comply with all HIPAA requirements and any other state and federal rules and regulations regarding security of information.

13. GRATUITIES, LOBBYING, AND COMMUNICATIONS.

13.1 Gratuities.

The Contractor will not, in connection with this Contract, directly or indirectly (1) offer, give, or agree to give anything of value to anyone as consideration for any State of Florida officer's or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone anything of value for the benefit of, or at the direction or request of, any State of Florida officer or employee.

13.2 Lobbying.

In accordance with sections 11.062 and 216.347, F.S., Contract funds are not to be used for the purpose of lobbying the Legislature, the judicial branch, or FAMU.

Pursuant to section 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term,

or compensation regarding the Contract after the Contract is executed and during the Contract term.

13.3 Communications.

13.3.1 Contractor Communication or Disclosure.

The Contractor shall not make any public statements, press releases, publicity releases, or other similar communications concerning the Contract or its subject matter or otherwise disclose or permit to be disclosed any of the data or other information obtained or furnished in compliance with the Contract, without first notifying FAMU's Contract Manager and securing FAMU's prior written consent.

13.3.2 Use of FAMU Statements.

The Contractor shall not use any statement attributable to FAMU for the Contractor's promotions, press releases, publicity releases, marketing, corporate communications, or other similar communications, without first notifying FAMU's Contract Manager and securing FAMU's prior written consent.

14. CONTRACT MONITORING.

14.1 Performance Standards.

The Contractor agrees to perform all tasks and provide deliverables as set forth in the Contract. FAMU will be entitled at all times, upon request, to be advised as to the status of work being done by the Contractor and of the details thereof.

14.2 Performance Deficiencies and Financial Consequences of Non-Performance.

14.2.1 Proposal of Corrective Action Plan.

In addition to the processes set forth in the Contract (e.g., service level agreements), if FAMU determines that there is a performance deficiency that requires correction by the Contractor, then FAMU will notify the Contractor. The correction must be made within a time-frame specified by FAMU. The Contractor must provide FAMU with a corrective action plan describing how the Contractor will address all performance deficiencies identified by FAMU.

14.2.2 Retainage for Unacceptable Corrective Action Plan or Plan Failure.

If the corrective action plan is unacceptable to FAMU, or implementation of the plan fails to remedy the performance deficiencies, FAMU will retain ten percent (10%) of the total invoice amount. The retainage will be withheld until the Contractor resolves the performance deficiencies. If the performance deficiencies are resolved, the Contractor may invoice FAMU for

the retained amount. If the Contractor fails to resolve the performance deficiencies, the retained amount will be forfeited to compensate FAMU for the performance deficiencies.

14.3 Performance Delay.

14.3.1 Notification.

The Contractor will promptly notify FAMU upon becoming aware of any circumstances that may reasonably be expected to jeopardize the timely and successful completion (or delivery) of any commodity or contractual service. The Contractor will use commercially reasonable efforts to avoid or minimize any delays in performance and will inform FAMU of the steps the Contractor is taking or will take to do so, and the projected actual completion (or delivery) time. If the Contractor believes a delay in performance by FAMU has caused or will cause the Contractor to be unable to perform its obligations on time, the Contractor will promptly so notify FAMU and use commercially reasonable efforts to perform its obligations on time notwithstanding FAMU's delay.

14.3.2 Liquidated Damages.

The Contractor acknowledges that delayed performance will damage FAMU, but by their nature such damages are difficult to ascertain. Accordingly, the liquidated damages provisions stated in the Contract documents will apply. Liquidated damages are not intended to be a penalty and are solely intended to compensate for damages.

14.4 Force Majeure, Notice of Delay, and No Damages for Delay.

The Contractor will not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay, and the delay is due directly to fire, explosion, earthquake, windstorm, flood, radioactive or toxic chemical hazard, war, military hostilities, terrorism, civil emergency, embargo, riot, strike, violent civil unrest, or other similar cause wholly beyond the Contractor's reasonable control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. The foregoing does not excuse delay which could have been avoided if the Contractor implemented any risk mitigation required by the Contract. In case of any delay the Contractor believes is excusable, the Contractor will notify FAMU in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) calendar days after the cause that created or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) calendar days after the date the Contractor first had reason to believe that a delay could result. The foregoing will constitute the Contractor's sole remedy or excuse with respect to delay. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages will be asserted by the Contractor. The Contractor will not be entitled to an increase in the Contract price or payment of

any kind from FAMU for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor will perform at no increased cost, unless FAMU determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the University, in which case FAMU may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to FAMU with respect to commodities or contractual services subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the commodity or contractual services that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

15. CONTRACT AUDITS.

15.1 Performance or Compliance Audits.

FAMU may conduct or have conducted performance and/or compliance audits of the Contractor and subcontractors as determined by FAMU. FAMU may conduct an audit and review all the Contractor's and subcontractors' data and records that directly relate to the Contract. To the extent necessary to verify the Contractor's fees and claims for payment under the Contract, the Contractor's agreements or contracts with subcontractors, partners, or agents of the Contractor, pertaining to the Contract, may be inspected by FAMU upon fifteen (15) calendar days' notice, during normal working hours and in accordance with the Contractor's facility access procedures where facility access is required. Release statements from its subcontractors, partners, or agents are not required for FAMU or its designee to conduct compliance and performance audits on any of the Contractor's contracts relating to this Contract. The Inspector General, in accordance with section 8.6, the State of Florida's Chief Financial Officer, the Office of the Auditor General also have authority to perform audits and inspections.

15.2 Payment Audit.

Records of costs incurred under terms of the Contract will be maintained in accordance with section 8.6 of this Standard Written Agreement. Records of costs incurred will include the Contractor's general accounting records, together with supporting documents and records of the Contractor and all subcontractors performing work, and all other records of the Contractor and subcontractors considered necessary by FAMU, the State of Florida's Chief Financial Officer, or the Office of the Auditor General.

16. BACKGROUND SCREENING AND SECURITY.

16.1 Background Check.

FAMU may require the Contractor to conduct background checks of its employees, agents, representatives, and subcontractors as directed by FAMU. The cost of the background checks will be borne by the Contractor. FAMU may require the Contractor to exclude the Contractor's employees, agents, representatives, or subcontractors based on the background check results. In addition, the Contractor must ensure that all persons have a responsibility to self-report to the Contractor within three (3) calendar days any arrest for any disqualifying offense. The Contractor must notify FAMU's Contract Manager within twenty-four (24) hours of all details concerning any reported arrest. Upon the request of FAMU, the Contractor will re-screen any of its employees, agents, representatives, and subcontractors during the term of the Contract.

16.2 E-Verify.

The Contractor must use the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired during the term of the Contract for the services specified in the Contract. The Contractor must also include a requirement in subcontracts that the subcontractor must utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term. In order to implement this provision, the Contractor must provide a copy of its DHS Memorandum of Understanding (MOU) to FAMU's Contract Manager within five (5) calendar days of Contract execution. If the Contractor is not enrolled in DHS E-Verify System, it will do so within five (5) calendar days of notice of Contract award and provide the Contract Manager a copy of its MOU within five (5) calendar days of Contract execution. The link to E-Verify is <https://www.uscis.gov/e-verify>. Upon each Contractor or subcontractor new hire, the Contractor must provide a statement within five (5) calendar days to FAMU's Contract Manager identifying the new hire with its E-Verify case number.

16.3 Disqualifying Offenses.

If at any time it is determined that a person has been found guilty of a misdemeanor or felony offense as a result of a trial or has entered a plea of guilty or nolo contendere, regardless of whether adjudication was withheld, within the last six (6) years from the date of the court's determination for the crimes listed below, or their equivalent in any jurisdiction, the Contractor is required to immediately remove that person from any position with access to FAMU data or directly performing services under the Contract. The disqualifying offenses are as follows: computer related crimes; information technology crimes; fraudulent practices; false pretenses; frauds; credit card crimes; forgery; counterfeiting; violations involving checks or drafts; misuse of medical or personnel records; and felony theft.

16.4 Confidentiality.

The Contractor must maintain confidentiality of all confidential data, files, and records related to the commodities or contractual services provided pursuant to the Contract and must

comply with all state and federal laws, including, but not limited to sections 381.004, 384.29, 392.65, and 456.057, F.S. The Contractor's confidentiality procedures must be consistent with the most recent version of FAMU's security policies, protocols, and procedures. The Contractor must also comply with any applicable professional standards with respect to confidentiality of information.

17. WARRANTY OF CONTRACTOR'S ABILITY TO PERFORM.

The Contractor warrants that, to the best of its knowledge, there is no pending or threatened action, proceeding, or investigation, or any other legal or financial condition, that would in any way prohibit, restrain, or diminish the Contractor's ability to satisfy its Contract obligations. The Contractor warrants that neither it nor any affiliate is currently on the Suspended Vendor List, Convicted Vendor List, or the Discriminatory Vendor List, or on any similar list maintained by any other state or the federal government. The Contractor shall immediately notify FAMU in writing if its ability to perform is compromised in any manner during the term of the Contract.

18. NON-DISPARAGEMENT.

Contractor acknowledges that the University relies heavily on its reputation to attract students, faculty, and donors. Accordingly, Contractor agrees that during the Term of this Contract, and at all times thereafter, Contractor, and its employees and agents, shall not, directly or indirectly, make, publish, or communicate disparaging, negative, or derogatory statements, whether verbal, written, or electronic (including, but not limited to, social media and online platforms) regarding the University, its academic or athletic programs, or its Board of Trustees, officers, administrators, faculty, staff, students, alumni, or donors. Nothing in this provision shall prevent Contractor from: (1) testifying under oath in any legal or administrative proceeding where such testimony is compelled by law; (2) reporting possible violations of federal, state, or local law or regulation to a governmental entity; or (3) making disclosures that are protected under the applicable whistleblower statute.
